By GEORGE ROTHWELL BROWN

"Ah, spare your idol! think him human still; Charms he may have, but he has frailties too."

The Moslems destroy a part of the famous "wailing wall" in Jerusalem, but the one up in S street is still kept intact and damp with the tears of disappointed job hunters.

Spiritualism may be a religion, as Judge Schult holds, but we've never heard of spiritualists going in for politics.

Lindbergh loses a wheel but not his head and what might have been a serious accident for a less skillful aviator proves merely a mishap to the world's most popular lovers.

Nevertheless the incident doubtless will result in increased pressure being brought to bear upon "We" to get married and settle down.

"Leg Means Nothing in Life of Lobster"—headline. Tell it to a chorus girl who is being entertained by one.

Kid Glass knocks out Biff Tydings in the battle of the century and the new produce market will be located in the Southwest section of the city, near the river, with its cheap transportation, and in almost the exact geographical center of Greater Washington. It is a good thing to remember that the opening of the Arlington Memorial Bridge will bring a large territory just across the Potomac into the "down town" section of the city, and its steadily increasing population will now have a market easy of access.

Sharkey wins, but we understand that a Miami mosquito drew first blood.

Speaking of fistic encounters that beat between Pa Stribling and Tony Palamoni was probably worth going to Miami to see.

It's just dawned on us that the reason they call it a "Cabinet state" is because the reporters rub it all out the next day.

And a state also brings to mind memories of "sponges."

The bill providing for the reappointment of the House, which has been neglected for years in defiance of the mandate of the Constitution, is killed in the Senate by the professional shouters for law enforcement hailing from States where the Fourteenth and Fifteenth amendments have been a dead letter so long that it is generally believed they've been repealed. It's things like this that make our bootleggers so cynical.

Doctor testifies that "La Belle Ferroniere" has mud in her eye. She was probably painted by a critic instead of an artist.

We congratulate Congressman Crampton on his extreme forbearance in refraining from adding an amendment to his \$16,000,000 special tax bill, requiring the people of Washington to pay for a national park in the Seventh Michigan district.

Secretary Jardine entertains at a farewell dinner and the dessert was not Cabinet pudding, either.

A plot to start an insurrection in Cuba is out of date by 30 years—what that country needs is a good-will trip.

Begins to look as though the latest Chicago massacre was committed by the guy who bumped off Nicky Arnstein.

In the old days when anybody wanted to know whether inauguration day would be wet he called up the Weather Bureau. Now he calls up a bootlegger.

Now that the State Department has abolished white spots for diplomats we are prepared to hear any day that an extraordinary ability to pour tea "right in the cup every time" will no longer be considered the most important qualification for an Ambassadorship.

Why even consider for a moment the location of an abattoir in Arlington County, when the very advance notices small to Heaven.

If Jim Good really is slated for Secretary of War the Army will not only fare well at the Capitol but will be put on a business basis—it was the lowest who put through the consolidated appropriating power of the House of Representatives without which the budget system devised by Gen. Dawes would not be possible.

The Senate earns time-and-a-half for overtime.

The Ways and Means committee that is frapping somebody—that is to say, a tariff bill—hears 1,100 witnesses, 1,100 of whom want something.

## LINDBERGH IS INJURED WHEN PLANE UPSETS; HIS FIANCEE ESCAPES

His Shoulder Is Dislocated in Landing Ship With Wheel Missing.

GIRL IS SEVERELY SHAKEN IN CRASH

He Drives Back to Scene With Her, One Arm in Bandage.

DISREGARDS ADVICE GIVEN AT EMBASSY

Mystery Attaches Loss of Device; All Photos of Wreck Destroyed.

Mexico City, Feb. 27 (A.P.).—Col. Charles A. Lindbergh, slightly injured today as his plane, in which his fiancée, Anne Morrow, was a passenger, overturned on landing, headed for only ten minutes a physician's instructions to remain quiet. Told at the embassy to take a good rest after his dislocated shoulder had been set, the famous aviator said he could not rest until he had inspected his damaged plane.

Miss Morrow spoke up and said: "All right, I'll go back with you." Thereupon, accompanied by Miss Anne Morrow's sister, Elizabeth, they climbed into the front seat of an embassy car.

Drives With One Hand. Col. Lindbergh's right arm and shoulder were heavily bandaged so that he was obliged to take the wheel with his left hand. With both girls in the front seat beside him he drove skillfully through the heavy traffic of the downtown section of Mexico City.

When they arrived at Valbuena Field the colonel answered interviewers with the statement: "I am all right. I am feeling fine." Miss Anne Morrow still showed some nervousness and declined to comment on the accident. Col. Lindbergh walked slowly around the plane, carefully examining broken parts and plainly distressed by the appearance of the craft. For a moment he appeared mournful then resumed his gay smile.

Appears in Gay Mood. They spent fifteen or twenty minutes at the field before returning to the embassy residence. Once more the flyer drove the car with his left hand. Ambassador and Mrs. Morrow had tea ready for them when they arrived and the colonel appeared in his gayest mood, insisting that he never felt better and that nothing serious had occurred.

A thick curtain of secrecy surrounded the events of the day, before and after the accident. Col. Lindbergh was returning from an air trip of several hours with the girl whom he will marry. The airplane, a four-passenger monoplane named the City of Wichita, had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and taxied for 30 yards on one wheel with the axle of the missing wheel dragging the ground. Suddenly the plane pitched forward and turned completely over.

Pictures Are Destroyed. A group composed of reporters, photographers, mechanics and Mexican aviation officers were present at the field. They rushed toward the plane and the photographers took hurried pictures while others helped pull the plane.

## MRS. ELSIE CAMERON WINS DOWRY IN SUIT

Capital Society Woman Gains Rights to Estate Left by Her Husband.

FUND NOW ONLY \$100,000

New York, Feb. 27 (N.Y.W.N.S.).—Mrs. Elsie Cameron, Washington and New York society woman, daughter-in-law of the late Sir Roderick Cameron, may claim her dowry right on the estate left by her husband, the late Duncan E. Cameron. It was stated today in a decision handed down by Surrogate Tiernan, of Richmond County.

The decision ends the struggle between Mrs. Cameron and her stepdaughter, Mary McLeod Mayer, for an estate which has dwindled to about \$100,000. In a will made March 4, 1926, Mr. Cameron left \$50,000 to his wife and the remainder of his estate to his daughter. In order to receive the decision Mrs. Cameron had to prove that her husband's residence was in Washington. Mrs. Mayer said her father's residence was in New York. He died at the Madison Hotel.

Mrs. Elsie Cameron, widow of the late Duncan E. Cameron, of Washington and New York City, said last night that she had not learned of the award, but had expected the dowry right in the estate of her late husband to be awarded her by the Surrogate Court of Richmond County, N. Y. It was necessary to prove the Washington residence of her late husband, she said last night.

She now resides at 2539 Massachusetts avenue northwest. Mrs. Cameron is prominent in Washington society. Her late husband was the son of the late Sir Roderick Cameron, of England, and spent most of his life in Europe. He died at the Madison Hotel, New York City, on May 11, 1927, while on his way to Newport, R. I., shortly after returning from Europe.

Selections of Good, to be Secretary of War, and Mitchell, to be Attorney General, became definitely known yesterday coincident with the information that Col. W. J. Donovan is definitely out of the picture. He is resigning his position as assistant to the Attorney General March 4 to reenter the private practice of law.

Friends of Donovan are keenly disappointed that he did not get into the

## NINE PLACES FILLED IN HOOVER CABINET

Names of Eight Men Definitely Known; Agriculture Head Being Kept Secret.

GOOD IS WAR SECRETARY

Nine out of ten of President-elect Hoover's Cabinet members have been selected and eight of them are definitely known.

They are: Secretary of State—Henry L. Stimson. Secretary of the Treasury—Andrew W. Mellon.

Attorney General—William D. Mitchell. Postmaster General—Walter Brown.

Secretary of Navy—Charles Francis Adams. Secretary of Interior—Ray Lyman Wilbur.

Department of Labor—James J. Davis.

The post of Secretary of Commerce has not been settled. Mr. Hoover has determined upon a Secretary of Agriculture, but his selection is not known. Considerable trouble is being experienced, in fact, in finding a suitable Secretary of Commerce. It is not altogether unlikely that Mr. Hoover may decide to hold over Secretary Whiting for a while. He is understood to want an outstanding business man for this post, one in whom business generally will have confidence. Yet men of this caliber are often reluctant to give up their private affairs to serve in the Cabinet.

Henry M. Robinson, Los Angeles banker and close friend of Mr. Hoover, is at present in New York, and there is reason to believe that it is in connection with Mr. Hoover's efforts to fill the commerce post. He, himself, could have it if he would accept.

Selections of Good, to be Secretary of War, and Mitchell, to be Attorney General, became definitely known yesterday coincident with the information that Col. W. J. Donovan is definitely out of the picture. He is resigning his position as assistant to the Attorney General March 4 to reenter the private practice of law.

Friends of Donovan are keenly disappointed that he did not get into the

Chinese Ship Wrecked; 80 Reported Drowned

London, Feb. 28 (Thursday) (U.P.). An exchange telegraph dispatch from Hong Kong today said 80 persons had been drowned when the Chinese steamer Shunan was wrecked 26 miles above Ichang.

## The Washington Post Inaugural Edition

The Post's Inaugural Edition to be published on the morning of March 4 will be the most authentic and elaborate work ever issued on the subject. It will contain more than 224 columns of reading matter and rare prints picturing past inaugurations.

The story of our Presidents, a detailed survey of every inauguration since the birth of the United States has been written by George Rothwell Brown especially for this edition. It is based on authorities made available under exceptional circumstances.

Historic as well as interesting information will be found on every page.

Washington residents as well as visitors will want the Inaugural Edition.

Mailed anywhere in the United States and Canada for 10 cents. A limited rag paper edition at \$1 a copy.

## CUBAN REVOLT PLOT CHECKED BY 8 ARRESTS

Prominent Men Accused of Planning President Machado's Death.

U. S. INTERVENTION BELIEVED TO BE AIM

Campaign Carried On in Army Ranks to Gain Rebel Recruits.

RAISING OF FOREIGN FUNDS ATTEMPTED

Police Chief Charges Communist and Nationalist Parties Are Involved.

Havana, Feb. 27 (A.P.).—Eight men, three of them prominent professional men of Havana, were arrested this evening charged with plotting to assassinate President Gerardo Machado y Morales and to bring about armed American intervention through the medium of insurrection throughout the island.

The men arrested and held without bond are: Dr. Alejandro Vergara Leonard, Francisco Vilabrie Corderos, Dr. Jose A. Inglan, Dr. Tomas Gelabert, Dr. Eduardo V. Cribas, Enrique Cerral, Angel Ortiz Cabanas and Fernando Vergara.

The police showed seized reports indicating a well organized plan for revolt and evidence that a campaign had been conducted within the Cuban army for recruits to the ranks of insurgents. Several cases of treason are expected to be brought against members of the army.

Chaotic State Sought. In the formal charge prepared by Alfonso Fors, chief of the judicial police, it is stated that various persons conspired to assassinate the president and to create a chaotic situation with the object of overthrowing the entire Machado government.

"So evident was the plot to execute these treasonable crimes," declared Fors, "and so clear was the pact among the plotters that we were told the president would not be able to assume office May 20."

Fors charges several organizations with being implicated in the plot. These include the Communist party, Nationalists, Anti-Imperialist League and the Nationalist Union. He said that antigovernment parties had been created throughout the island under the name of "local government." These parties were commissioned, he declared, to organize the revolution and arrange the details of assassination.

Find Letter to Hoover. "With this revolution completely organized," charged Fors, "they had appointed notable delegations in foreign countries for the purpose of raising money to finance the revolt."

It is reported that the police have a document ostensibly addressed to President-elect Hoover asking for intervention by the United States on the ground that "Cuba is unable to govern herself."

Officials of the executive palace tonight said that President Machado had not been disturbed by the disclosure of the plot. There was no extra guard at the palace and it was stated that most of the facts concerning the conspiracy had been known to the government for several weeks.

Col. Mendez Penate, former leader of the Nationalist party, hastened from a sick bed to the Havana Jail on behalf of certain men arrested as plotters who were members of his party. He characterized news of the plot as "fantasy."

Wife, in Air, to Scatter Mate's Ashes Over City

New York, Feb. 27 (A.P.).—On his deathbed Walter J. Kingsley, veteran theatrical press agent, whispered to his wife that even in death he must not be parted from the Broadway that he had loved so long.

And so, in accordance with his wish, Mrs. Kingsley announced today that she would fly over the city as passenger in an airplane tomorrow and scatter her husband's ashes above Times square.

## LOVE LETTERS RULED OFFICIAL EVIDENCE IN TRIAL OF BURLINGAME

Jack Sharkey Winner in Close Miami Battle

Young Stripling Wilts at Finish to Lose Verdict Before 40,000.

By ALAN J. GOULD (Associated Press Sports Editor). Flamingo Park, Miami Beach, Fla., Feb. 27 (A.P.).—The staid hopes of W. L. (Young) Stripling, heavyweight pride of Georgia and the South, skyrocketed tonight in the balmy tropical air—flaring high, then falling, extinguished in a sputtering blaze by the ramming fists of the big Boston sailor, Jack Sharkey. In a slashing ten-round fight that was thrillingly close from start to finish, Sharkey had his hand lifted aloft, the victor, on the decision of Referee Lou Magnolia, of New York.

Thus leaping back along the comeback road that leads toward the ropes cast aside by Gene Tunney last year, Sharkey outpointed and outboxed his

JACK SHARKEY.

Prosecutor Scores When Inquiry Board Orders Data in Record.

CAPTAIN ADMITS ONE SIGNATURE HIS OWN

Authorship of Missives to Be Denied, Officer's Lawyers Indicate.

ACCUSED WILL OFFER DEFENSE FROM STAND

Police Department Members Tell of Defendant's Devotion to Duty.

The prosecution scored a major victory in the trial of Capt. Guy E. Burlingame, suspended commander of the Second Police Precinct, before the special Police Trial Board yesterday when it got into the record as evidence the love letters it is charged Burlingame wrote to Mrs. Helen F. Black, former seventh street palmist and accused of the police captain.

Acceptance of the letters as evidence was vigorously objected to by William B. Leahy and Henry F. Woodard, defense counsel, who contended that there was nothing in the record beyond circumstantial evidence to show that Burlingame actually wrote all the letters.

Burlingame's Admission. Earlier in the day Burlingame, through Leahy, had admitted that he had signed the widely-discussed "Heart's Desire" letter addressed to "My Dear Helen" and in the course of which it was declared:

"Helen dear, you may make such use of this letter as you wish my dear. I am not a woman, but even so, I have no regrets. The many hours of happiness spent in your company would repay it all. I can't doubt you little girl and I feel that everything will come out all right for yourself and your heartless 'Daddy.'"

Burlingame admitted also that it was his signature which was written in ink on all of the other letters, checks, receipts and papers which had been introduced as exhibits by the prosecution.

Luckett First Witness.

Harry M. Luckett, chief and property clerk of the Police Department, and former head of the District prohibition enforcement division, was the first witness called by the State. He was called to order by Maj. D. A. Davidson, chairman of the Trial Board, at 1:02 o'clock yesterday afternoon. Luckett was asked by Assistant Corporation Counsel Walter L. Fowler to identify Burlingame's signatures and was positive about most of them.

"Leahy, however, went the prosecution one better when he began cross-examination of Luckett, and after conferring with Burlingame declared that, on behalf of the police captain, he was prepared to say that Burlingame actually had signed all of the exhibits about which Luckett expressed some doubt.

But, he insisted, that did not mean that Burlingame was the author of the heartless daddy or any other of the letters which it was admitted he had signed.

The admission brought the prosecution case almost to a close, and at the end of the proceedings for the day Davidson and Fowler said that they would not bother to call the many handwriting and other experts they had summoned to prove that Burlingame had signed the papers.

One more witness is to be called today by the prosecution and then it will rest and the presentation of the defense case will be begun. The identity of

the prosecution witness who is to be placed on the stand when the trial resumed at 10 o'clock this morning, however, was not disclosed. But Leary and Fowler resolutely refusing to state even what the witness was to testify about.

Capt. Burlingame is to take the stand himself in his defense against the charges of conduct unbecoming an officer and prejudicial to the good order, reputation and discipline of the police force, on conviction of which he may be recommended for dismissal by the trial board.

**Appearance Date Not Certain.**

But when the police captain will take the witness chair to defend himself against the charges of the woman he admits was once his associate and friend, but who was, he insists, never his sweetheart or paramour, has not been determined.

Leahy and Woodward yesterday said they had summoned 75 witnesses and intended to call each one of them to the stand. These witnesses include police officers and privates, business men and others.

Mrs. Blalock's sister will not be called as a defense witness, Leahy said yesterday in response to reports that she would be.

Leahy asked me to leave her sisters out of the case and I will, Leahy said.

**Defense Plans Ready.**

Defense witnesses are expected to testify that, far from being a person who carried on a campaign of seduction against Burlingame, she frequently sought him at the Second Police Precinct Station, frequently telephoned him there and was understood by police officers in the precinct to be a source from whom the captain got valuable information which aided in his law enforcement work. There are to be too many witnesses called to tell of the high character and reputation borne by Burlingame in his official and private life.

Despite that the trial now has been proceeding for several days and examination of almost all of the prosecution witnesses, there has not been developed anything positive to point to the explanation which will be advanced by the defense to absolve Burlingame. It is reported that the defense will admit that Capt. Burlingame wrote the letters on a typewriter which he had in his office in the Second Precinct Station, and that he signed the one ending with "heartsease daddy."

**May Deny Authorship.**

But, it will be contended, Burlingame was not the author of the letters, that some one else sent them to Mrs. Blalock, and in response to a request from her Burlingame copied them in the letters. It is said, it is said, were the subject of a laughing discussion between Burlingame and some of the men in the precinct station one night and Burlingame, because of the lack of courage shown by the author and in a spirit of fun, he signed his own name diagonally across the bottom of the letter he just had finished copying.

When Capt. Burlingame will take the stand in his own defense has not been decided, Leahy and Woodward declaring they had not completed the lineup of their witnesses.

It has been informally agreed that the trial will be adjourned Friday evening and will be resumed until Tuesday morning after inauguration. This plan has not been officially approved, but it is thought it will be.

**Becomes Defense Witness.**

After Luckett had concluded his testimony as a prosecution witness yesterday, Leahy made him his own witness and drew from the former prohibition chief the statement that Capt. Burlingame's reputation "as an officer and a gentleman" was "all that could be desired."

"I have made many raids with Capt. Burlingame and my men liked to work with him," Luckett said. "Whenever I got a new man I sent him to work with Capt. Burlingame, who was then commander of the 'vice squad,' so that he could learn how raids should be conducted and prohibition should be enforced."

"Capt. Burlingame worked day and night," he told his men, Luckett said. "Fowler asked if Luckett had known Burlingame socially or had lived in the neighborhood with him. Luckett said no, and replied in the affirmative when Fowler asked if his commendation of the police captain was not based on his police work."

**Arrest Record Presented.**

Lieut. L. I. A. Edwards, of police headquarters, was the second witness, and he, too, was a witness for the prosecution and defense. He presented tabulations showing the number of arrests for various law violations made in each police precinct for 1926, 1927 and 1928, as well as the official record of Burlingame from the headquarters files. Leahy read this record of 38 years service in the department into the record. There were many entries followed by "no action." Edwards said that such a notation meant that the complaint had been thoroughly investigated and that it had been found there were no grounds for action or criticism of the officer.

It was this record which Representative

Tom Blanton, of Texas, read in part into the Congressional record from the floor of the House before Burlingame was brought to trial. But Leahy read the whole record, including those entries commending the captain for bravery, kindness and efficiency, which Blanton left out in his speech.

**Women Mentioned Twice.**

Two entries dealt with women. Once, years ago, Burlingame was accused of meeting a young woman. Once, some time after that, there was a note that a doctor had complained about Burlingame's relations with the doctor's wife. Burlingame admitted that he "might have been indiscreet" in the matter, the record reported. Those two entries were made years ago before the police captain began his upward climb from the ranks.

Capt. Burlingame is considered one of the very best men in the department. Edwards declared in response to a question from Leahy. Edwards keeps the day by day record of activities of all precincts and police bureaus, he said, and official reports showed that Burlingame "knew no hours but worked 24 hours a day." Edwards analyzed the official tabulation of arrests and declared that the figures for the Second Precinct showed an immediate jump when Burlingame was assigned to its command in August, 1926.

**15,000 Arrests in Precinct.**

Last year there were more than 15,000 arrests in the Second Precinct, Edwards said, more than the number of arrests in any other precinct in the city, except the First, in which 15,000 arrests had been made, of which more than 10,000 were for violations of the traffic regulations.

The Second Precinct includes the toughest section of the city, doesn't it? queried Fowler.

"Well," Edwards responded, "it is one of the hardest to command and police and one of the toughest."

Chairman Davidson developed that there were 95 men assigned to the First and 99 men assigned to the Second Precinct, and Edwards said that the Second Precinct was larger in territory and had more personnel in it.

**Short Recess Taken.**

There was a recess taken, at the request of Leahy, so that defense and prosecution counsel could come to agreement on various points to shorten the whole proceedings. The conference between counsel, however, lasted for 45 minutes and then did not produce very much in the way of stipulations.

The typewriter on which the love letters were written, according to the prosecution, actually had been in Burlingame's office in the Second Precinct Station, it was agreed.

Burlingame took the typewriter to his home after the charges against him had come to a head and subsequently turned it over to Assistant United States District Attorney William H. Collins, who in turn, sent it to Bridge Street, to be used in the trial board proceedings.

Dr. Wilmer Souder, measurement expert of the United States Bureau of Standards, was called by the prosecution to identify the typewriter as that on which the letters had been written.

Souder declared that he first had seen the typewriter in Burlingame's office in the station on the night of Sunday, February 10.

**Expert Visits Precinct.**

He had gone to the precinct station in the company of Deputy Chief of Thomas P. Cullen, who was later in charge of the guard over Mrs. Helen F. Blalock, Burlingame's accuser, while she was in Washington for the trial. "You needn't bother with any of those other machines," Souder said to Burlingame, who was "very careful" to tell them as they began to take samples of writing from the several machines in the room.

"That's the machine, then," Souder testified Burlingame told them pointing to the typewriter which then was on the table before the witness, which was then in the captain's office.

"The captain assured us that there was no use in going to the other machines, as this was the only one in question," Souder said.

The Bureau of Standards scientist, who uses in his everyday work machines capable of measuring one millionth of an inch, then went on to cite twelve peculiarities of the machine in question.

"Did Capt. Burlingame say he used that machine?" asked Fowler.

"He said he only used this one," Souder replied.

**Peculiarities Described.**

The peculiarities of the typewriter, Souder said, included: The capital E appeared light on the left side; the capital R printed light on the left vertical stroke; the small b was weak at the upper part and sometimes separated from the rest of the letter; the hyphen appeared to point to the left, at which end it is narrower; the question mark was weak on the upper right side; the small a was weak at the top; the same thing was true of the small d; capital F was weak at the upper left side; the capital W was weak on the lower left side; the left side of the quotation mark was shorter than the right; the parentheses was sharper and

## SCENE AND WITNESSES IN BURLINGAME TRIAL

narrower at the top than the bottom; the bases of all of the capital letters were low.

"The possibility of two typewriters having the same characteristics is extremely remote," Souder told the trial board.

"The chance of finding a typewriter with an E like this is 1 in 100, the chance of finding two typewriters having two identical peculiarities is 1 in 10,000 and to find two typewriters having all of the peculiarities of this one would require up in the billions of typewriters," Souder testified. "Consequently it is highly improbable that any two typewriters can be found with the same peculiarities."

Shown the letters, which he said he previously had examined in the office of Representative Blanton, in the House Office Building on February 11, Souder said he had marked them and was convinced that all but one of the letters and communications had been written on the typewriter in question.

**Letters Are Offered.**

Fowler then offered all of the letters in evidence and Leahy objected. "Suspicion does not mean proof," Leahy urged the board. "There is no proof in this record about the letters written by Capt. Burlingame. On the evidence which has been submitted here I might have written these letters."

"I tried to find out from Mrs. Blalock whether she would identify these letters. Those which the record shows she identified as having been admittedly written by Capt. Burlingame, or proved by other evidence, there is no objection to their being received as evidence."

"But this board heard her say 'appreciation,' this board saw her demeanor, and the board saw her answer to the chairman's very pertinent questions whether she ever had received one of these letters directly from Capt. Burlingame in person, or had had one of them in her hand when she had discussed it, as she said she did, with the captain."

"The question is not whether the letters were written on this typewriter, but by whom they were written."

**Leahy Continues Opposition.**

"Suppose instead of love letters these were promissory notes. Would this board say that Capt. Burlingame had to pay Mrs. Blalock thousands of dollars on the basis which is asked to approve them as evidence as love letters?"

"There's no proof in the record, even in the reckless statements of Mrs. Blalock, that Capt. Burlingame wrote these silly 'love' letters."

"A man doesn't write these kind of letters with some one standing over him," Fowler argued. "We don't consent we have a witness who has admitted in evidence. The letters all have the same general characteristics. In the one letter which was signed and given to me in evidence has acceptance of evidence reference is made to all the other letters. I submit the letter should be accepted."

Maj. Davidson announced that the trial board overruled the defense objection and the letters and other exhibits were admitted in evidence and adjournment was taken until this morning.

## Boy Is on Way Home With Alleged Kidnapers

Los Angeles, Feb. 27 (United Press).—Dickie Grant, the 11-year-old boy found in Roswell, N. Mex., with his alleged kidnaper, Harry Palmer, will reach his home here Friday. After two months of roaming about the Southwest they started back today in custody of Capt. "Butch" Allen, Los Angeles detective, and Fred Phillips, head of the Santa Fe railroad detective force. William J. Grant, father of the boy, was indignant as he received reports that Dickie had declared he left home because "they were mean to me" and that Palmer was the boy's friend. "That isn't true," the father said. "Palmer kidnaped the boy and put the idea into his head. The suspense was awful and we certainly are glad our boy is safe and on his way back to us."

## Illness of Shaw Causes Anxiety; Doctor Called

London, Feb. 27 (U.P.).—The condition of George Bernard Shaw, playwright, who has been suffering from influenza, is causing his wife and friends grave anxiety. It was learned tonight. It was believed Shaw was suffering from something more than ordinary influenza. Despite the playwright's lack of confidence in physicians, his wife, who learned, has called a doctor and a radiographer to her home. Late tonight it was said at the house that his condition had showed some progress.

## Evangeline Booth Asks Prayers for Brother

London, Feb. 27 (U.P.).—Commander Evangeline Booth, of the Salvation Army, asked from Southampton on the Berengaria this afternoon for New York. She was cheered by a crowd of 1,000 when she left London. "I deeply regret that I have been unable to see my brother (Gen. W. Bramwell Booth, deposed commander of the Salvation Army) during my visit," she said. "I beseech 'in value' we must all pray his health is restored."

## FIRE RECORD.

4:00 a. m.—Rear 2510 Pennsylvania avenue northwest. 10:37 a. m.—1442 Irvine street northwest. 5:07 p. m.—1836 Ninth street northwest. 8:38 p. m.—1805 Fourteenth street northwest. Gasoline on floor.

do you wish me to feel that you did not mean a word of it when you told me that you loved me so and could not get along without me etc., BABY GIRL I believed you then and I still believe in you.

Helen Dear, you may make such use of this letter as your heart may dictate. In this letter as in all others I have been honest with you. Just opened my heart to you and told you nothing but the truth, and the worst that anyone could say, would be, that another man had made a fool out of himself over a woman, but even so, I have no regrets. The many hours of happiness spent in your company would repay it all.

I can't doubt you Little Girl and I feel that everything will come out all right for yourself and your HEARTSORE.

Daddy.

Upper—Corporation Counsel William W. Brice and Attorney William Leahy, of defense counsel, examining the Burlingame service record, when it was presented by Lieut. L. I. A. Edwards, seated, of headquarters. Lower left—Harry Luckett, chief clerk of the Police Department, and lower right, Dr. Wilmer Souder, Bureau of Standards expert. Below—The signature on the "heartsease daddy" letter which Burlingame admitted was his own.

## FOCH CALLS PRIEST, BUT TALKS OF WARS JURIST INDISCREET, GRAND JURORS FIND

Stricken Marshal of France Bans Discussion of Last Rites of Church.

WORRIES ABOUT BROTHER

Paris, Feb. 27 (A.P.).—Marshal Ferdinand Foch, desperately ill with a complication of lung, heart and kidney ailments, today decided to put his spiritual house in order. He called to his bedside Father L'Hande, a famous preacher of the Jesuits, the order to which the marshal's brother belongs.

The patient insisted, however, that the matter of extreme unction, the rite of the Catholic Church for the faithful who are in danger of death, be not discussed.

Father L'Hande would not reveal what the marshal had told him, that he was a secret of his priestly office, but he said, "We talked about Napoleon's campaign in Italy."

It was learned from other sources that the former generalissimo of the allied armies read today with much interest newspaper accounts of the debate on the Kellogg pact in the French Parliament and exclaimed: "That's right. There should be no more wars."

The marshal's condition showed its usual variance today. After passing through a real crisis last night he rallied toward daylight, but tonight his temperature had risen to 101.6. It was learned that he was in a disquieting and that his general condition is disquieting to his attendants.

## Ganna Walska's Bill Favored in Assembly

Albany, N. Y., Feb. 27 (U.P.).—The seizure by customs agents of Mme. Ganna Walska's jewels on the ground that her residence was Chicago, the same as her husband's, seemed likely today to result in broadening women's rights to allow them to make their own legal residence in New York State. The assembly judiciary committee reported favorably on a bill, sponsored by Mme. Walska, providing separate domiciles for wives.

Mme. Walska denounced the present laws under which a wife's legal residence is wherever her husband's happens to be, and told legislators of her humiliation she underwent when customs agents searched at her door of a residence in Paris. Her husband is Harold F. McCormick.

## Death From Meningitis Follows Wrestling Fall

Irving Schrieke, 23 years old, of 655 Morton street, northeast, who came from the floor at his home February 11 while wrestling with J. A. Rudolph, of 666 E street northeast, died from meningitis Tuesday evening at Emergency Hospital, where he was taken Sunday, police report.

Schrieke died Friday by Dr. N. Smiler, of 1912 Sixteenth street northwest, and two days later removed to Emergency Hospital.

The hospital report on his death stated that no injuries resulting from the fall were discovered, hospital authorities said, and the acute meningitis was not caused by the wrestling bout.

## AL CAPONE'S GUNNER HELD IN GANG DEATHS

Police Say McGurn Identified as One of Valentine Day Slayers.

GIRL IS TAKEN WITH HIM

Chicago, Feb. 27 (A.P.).—Jack McGurn, reputed crack machine gunner of the Al Capone clan, was arrested on a downtown corner late today and a short time later came word from detective headquarters that a witness had identified him as a member of the band that slaughtered seven hostile gangsters two weeks ago.

McGurn was the first man arrested of the seventeen listed by Police as wanted for the St. Valentine's Day murders. Daniel Anderson, a Cusack, and a detective squad encountered the gangster as he stepped from an automobile at Monroe street and Michigan boulevard, accompanied by a woman. He was taken without trouble, and in his pockets the detectives found two pistols. The girl, Miss Louise Rolf, was also held for questioning.

With McGurn, who headed the list of seventeen suspects, disclosed with Assistant State's Attorney and detective chiefs for examination, the investigators once more expressed conviction that they were nearing a solution of the murders that climaxed a four-year series of unsolved gang murders. The capture of the gunner came simultaneously with word from the Federal district attorney's office that McGurn's chief, Al Capone, was to be brought here from Miami, Fla., under a Federal grand jury subpoena.

**To Face Grand Jury.**

Assistant United States Attorney Daniel Anderson said Capone would appear before the jury March 12, and it was understood he would be questioned concerning the execution of George "Bugs" Moran's henchmen, his co-foes, as well as concerning his connection with the Chicago Heights alcohol syndicate.

Michael Flavis and Sam Laverde, already in custody, were booked on charges of being accessories after the fact of the murder today. They had been arrested in the circus case, near where a burned and mutilated car thought to have been used by the slayers was found. They will be arraigned tomorrow.

A woman, who was reported to have identified McGurn at headquarters today, was held under close guard and neither newspaper reporters nor photographers were permitted to see her. McGurn himself is understood to have refused to answer questions.

A second automobile, answering the description of one used by the killers, was found by police today in Maywood, a suburb. It had been partly destroyed by explosion of a bomb placed under the hood.

**Resembles Police Car.**

Today's car, like the first, resembled a squad car, as witnesses said the killers used and even contained a good gun rack, window slot for gun muzzles and a license the first three numbers of which were the same as the first three numbers of all police cars. The license, it was learned, had been stolen two months ago.

Inside the car were some empty shotgun shells, and a notebook containing the name of Al Weinschank, one of the slain men, and Ted Newbury, one of those sought for questioning regarding the slaying. The notebook also contained a list of names of all police cars, and a diary page with which Weinschank was said to have been connected. A dirty cap and pair of overalls also were found.

## Marines Fight Sandino In Honduras, Is Report

Tegucigalpa, Honduras, Feb. 27 (U.P.).—Unconfirmed reports received here today said American Marines and Nicaraguan national guards had engaged in an encounter with troops of the rebel leader, Gen. Augusto Sandino, near Las Marinas, Honduras, beyond the Nicaraguan border.

The Nicaraguan village of Santa Rita was reported burned as a result of the battle, which was said to have favored the rebel forces. The advances were heavily resented here due to reports of inaccurate reports of Sandinista fighting.

## Attempt to Dynamite Quebec Premier Fails

Quebec, Quebec, Feb. 27 (A.P.).—What apparently was an attempt on the life of Premier Taschereau was disclosed today. The premier said that he had found a stick of dynamite, with a half-bound fuse attached, in his office last night.

The incident was kept a secret until today. The premier said, that the fuse had been extinguished before he reached his office. Police who removed the explosive said it was dynamite of the most powerful type.

## France Gives Burial Plot to United States

Paris, Feb. 27 (U.P.).—The Chamber of Deputies today gave a resolution to the United States the land where the bodies of members of the Lafayette Escadrille are buried. The resolution will be voted on later by the chamber.

## SPECIAL NOTICES

## Senate Questions Voluble Dry Agent

Dry Appointments Is Ordered to East

Mellon and Commission Are Asked Why List of Eligibles Is Not Published.

Secretary Mellon and the Civil Service Commission were asked in a resolution adopted by the Senate yesterday to state the reasons for the failure to publish lists of eligibles for appointment to the field service of the Prohibition Bureau.

The resolution also requested the names of all persons employed in the field service who have not been appointed according to the civil service law, the names of those employed in the field service who have been appointed pursuant to the law, and the amount expended for examination of employees of this class.

Lastly, the resolution calls for the amount of salaries paid to persons employed under any other method than that provided in the law which created the Bureau of Customs and Prohibition.

The FREE Educational Bureau of The Washington Post will be glad to supply you with booklets and other information on Schools and Colleges in and out of Washington.

## MYSTERY SHROUDS TORCH VICTIM YET

Identification of Woman's  
Flame-Scorched Body  
Is Queried.

### CAR THEFT STILL CLEW

Newark, N. J., Feb. 27 (N.Y.W.S.).—An almost positive identification of the woman whose flame-scorched body, pierced by a bullet, was found last Wednesday in a snowbank beside a quiet roadway leading out of Cranford, was shattered tonight when the supposed victim was declared by neighbors and friends in Newark to have been seen Sunday night. According to the stories told Newark police, she now is living in Montclair and wishes to keep her whereabouts secret, lest her husband, whom she left three weeks ago because he is said to have mistreated her, find her.

Detectives of Union County, under John A. Galatin, who have steadily refused to accept identifications made by a number of persons who have called at Martin's Morgue in Elizabeth, drawn by printed descriptions, insisted tonight they are following a lead which will clear up the mystery in 48 hours. Furthermore, they say, positive identification will be established at that time.

Nature of Clew Concealed.

The nature of the clew, they said, could not be disclosed, nor would they confirm the rumor that one of the identifications previously made by citizens was the correct one.

It was Arthur Daniels, a taxidermist living at Verona, who called at the morgue this afternoon and said he was convinced, after viewing the body, that the victim was Mrs. Alice Knitters, who left her flat here three weeks ago because of a quarrel with her husband, George Knitters, whom Daniels said, was his close friend. They had often gone fishing together, and he had known Mrs. Knitters for eight years.

Because of a twisted finger of the right hand of the victim, Daniels was positive of her identity. Mrs. Knitters, he knew, had an operation two years ago which had caused her finger to become warped in the same manner.

Several Saw Her Alive.

Scarcely two hours after he had told his story to Assistant Prosecutor John B. Walsh, of Union County, Newark police reported local residents who had seen her alive after the murder. A friend, Mrs. Charles Woods, had been her hostess Sunday. Patrolman Harry Moll, stationed on traffic duty opposite Mrs. Knitters' late residence, had talked with her. Even David Kohn, owner of a stationery store next door, who this afternoon had gone to the Elizabeth morgue and said he was "almost positive" the victim was Mrs. Knitters, whom he saw in newspapers, retracted his identification when neighbors reminded him he had seen her not long ago.

Other information uncovered by Union County detectives, which they are investigating, included the reported theft of a blue closed car which might have been the same one as a white Buick, which was seen near the scene of the murder. The car reported stolen Friday from the garage of the Moore-Kerr Automobile Co. in Elizabeth, and not yet recovered was believed similar to that seen in the half dark by the witnesses.

### DIED

**BEATON**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Robert C. Beaton, aged 64 years.

## FLIGHT OF AFGHANISTAN'S KING FROM REBELS

Inayatullah, who was King of Afghanistan for three days, succeeding his brother, Amanullah, is shown at the left in the photo, fleeing from Bachal Sacha, brigand, who had seized the throne. The picture was taken just after the fleeing king had arrived at Peshawar by plane.

## TRUSTEE FOR BONDS DEBT PARLEY TOPIC

Control by Individual or Corporation Is Before Rep-  
arations Group.

### ISSUE'S SIZE DISCUSSED

Paris, Feb. 27 (A.P.).—The trustee for reparations bonds, if any are finally issued, was the chief subject under discussion by the reparations experts today.

The talk tended to bring out whether the trustee who holds the bonds issued by Germany on reparations and would apportion them among the Reich's creditors, should be of an individual or corporate nature. The whole subject, it was said in expert circles tonight, was still in a sort of nebulous state, but the discussions appeared to be moving toward a decision on important points.

What size of German bond issue the world's markets could absorb was a question which it had been intended to keep altogether subsidiary, but it has been thrust forward as a consideration which the French delegates must have in view if they expect to anticipate the German annuities by selling them to investors everywhere.

The smaller cash transfers have been made yearly, the more solid would be the German bond issue. Hence the commercialization part of annuities has taken its place in the discussion close to that of the important matter of unconditional money transfers.

The financial personages studying this part of the problem bring to great experience and authority. The prevailing view appears to be that it would be futile to talk of billions of dollars for 60-year periods. International buyers might, it is said, take the equivalent of \$800,000,000 or \$1,000,000,000 with attractive rates of interest, with three-quarters allotted to Europe since it has the deepest interest in the settlement and one-quarter allotted to the United States.

Thirty or at the utmost 35 years are mentioned as the term for amortization.

Bankers throughout Europe appear to be extraordinarily interested in the reparations and inquiries have been received from all the small capitals both in Eastern and Western Europe.

**DIED**

**CLARK**—On Saturday, February 23, 1929, at his residence in St. Louis, Mo., after a long illness, Mr. Richard P. Clark, aged 64 years.

**FRITZ**—On Sunday, February 24, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Fritz, aged 64 years.

**GILROY**—On Tuesday, February 26, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Gilroy, aged 64 years.

**GODDARD**—On Friday, February 22, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Goddard, aged 64 years.

**HOWARD**—On Tuesday, February 26, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Howard, aged 64 years.

**ISRAEL**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Israel, aged 64 years.

**KEMP**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Kemp, aged 64 years.

**KING**—On Sunday, February 24, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. King, aged 64 years.

**MURHEAD**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Murhead, aged 64 years.

**NEWBOLD**—On Tuesday, February 26, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Newbold, aged 64 years.

**O'NEILL**—On Tuesday, February 26, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. O'Neill, aged 64 years.

**OSTROW**—On Tuesday, February 26, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Ostrow, aged 64 years.

## Relative of Gen. Gates Held as \$2 Vote Seller

Chicago, Feb. 27 (N.Y.W.S.).—Asserting that Gen. Horatio Gates, of Revolutionary fame, who commanded the troops at Saratoga that captured Burgoyne, was his great grandfather, Harry Gates, 52 years old, was before County Judge Jarecki today on the charge of selling his vote for \$2. He looked like a hobo.

"My family has been in this country since 1740," he said. "I was drinking and didn't know what I was doing."

"You have been here long enough to have a sense of duty and citizenship," said the judge. "On account of your family in Wheaton I will release you on your own bond what you must report here next week."

**LINDBERGH HURT  
IN PLANE CRASH**

Continued from page 1.

Colonel and Miss Morrow out of the cabin windows.

Col. Lindbergh's first act was to clutch his right arm, which appeared to be in pain, and smile reassuringly at Miss Morrow. She was somewhat agitated and the colonel seemed to be chiefly concerned with telling her that there was nothing to worry about.

"Are you hurt?" Miss Morrow asked, and the colonel replied: "It is nothing. Don't bother about me. It is nothing. Are you all right?"

Miss Morrow was dusty, disheveled and trembling, but tried to smile and replied, "Yes, I'm all right."

Col. Lindbergh grinned boyishly and turned toward a group of reporters who had taken his place in a broadside of questions at him. He said, and repeated several times: "I have nothing to say."

A few minutes later he changed his mind and modified his refusal to speak to remark:

"This is nothing at all. It is not an accident. It was simply a mishap. Mexican army officers had received orders meanwhile to destroy all photographic records of the accident. They did this with thoroughness and zeal, exposing all films to the light and confiscating all still and moving picture cameras."

Takes Fleece Away.

Miss Morrow seemed to become more and more nervous during the few minutes immediately after they had been dragged from the overturned plane. She appeared to have suffered a severe shock. Col. Lindbergh glanced several times quickly in her direction and then, without saying anything, caught her by the arm and led her toward the hangar, 500 yards away.

A Mexican army truck happened to pass going in the same direction. Col. Lindbergh bundled Miss Morrow into it and they rode to the hangar, near which an automobile from the American Embassy was waiting. Without looking to see if they were being followed, they entered the automobile, and the colonel, despite his painful shoulder, took the wheel and drove to the embassy.

Dr. Sidney Unfield, an American physician residing in Mexico City, was summoned to the embassy residence. Little could be learned regarding the results of his examination beyond the fact that he had replaced the dislocated shoulder and had added the famous flag to remain in bed for the present.

The accident terminated a three-hour flight. It was the first time the aviator and his passenger had been separated since they left the air together since the announcement of their engagement. Their destination and the circumstances surrounding the loss of a landing wheel remain closely guarded by both.

When they left the field this morning they flew in the direction of Cuernavaca, 50 miles south of Mexico City, but refused to say whether they had landed in Cuernavaca. Col. Lindbergh offered no clue to the lost wheel beyond saying that it was dropped in some field. They returned from the same direction, near Mexico City.

\$1,000 Damage From Grease Fire.

An fire starting from a pan of grease early yesterday morning in the Martin Oro bakery shop at the rear of 2510 Pennsylvania avenue northwest caused damage estimated at \$1,000 to the building and shop, police report.

**DIED**

**PRIEST**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Priest, aged 64 years.

**PRINTZ**—On Wednesday, February 27, 1929, at 10:40 a. m. at his residence, 1000 West 10th St., Newark, N. J., after a long illness, Mr. Harry B. Printz, aged 64 years.

## DAILY AIR LINE, U. S. TO MEXICO, PLANNED

Mail and Passenger Service  
to Start March 9, With  
Col. Lindbergh Pilot.

### SCHEDULES ANNOUNCED

New York, Feb. 27 (A.P.).—Pan-American Airways announced today that daily air mail and passenger service between Brownsville, Tex., and Mexico City would be started March 9, with Col. Charles A. Lindbergh flying the first southbound plane. Col. Lindbergh is technical advisor of Pan-American.

The statement, signed by J. I. Trippe, president of the company, read:

"Final arrangements have been completed for the inauguration on March 9 of air mail and passenger service between Brownsville, Tex., and Mexico City, via Tampico."

Col. Charles A. Lindbergh, as technical advisor to Pan-American Airways, will pilot the first plane over the new route. It is expected that officials of both the United States and the Mexican Governments will accompany Col. Lindbergh as passengers on the inaugural flight.

"Although the schedule adopted for operation of this line calls for a departure from Brownsville at 7:30 a. m., through the courtesy of Postmaster General Harry F. New, to permit the inaugural program to be carried out, the first flight will be inaugurated at 10 a. m., to arrive at Mexico City at 3:30 p. m., with the first air mail over this route from the United States."

Northbound service will be inaugurated on the same morning with departure from Mexico City at 7:45 a. m., arriving at Brownsville at 1:15 p. m., with the first air mail from the Mexican capital.

"That section of the new route which lies over Mexican territory will be operated by Compania Mexicana D'Avaco, a division of Pan-American Airways, organized under Mexican laws. Trimotored Ford cabin monoplane, equipped with Wasp 400-horsepower motors, and accommodating twelve passengers, will be operated over the new line."

**Wife Charges Husband  
Left Her to Play Golf**

Emmett W. Scott, a real estate broker, was sued for absolute divorce by his wife, Catherine T. Scott of 2013 New Hampshire avenue northwest, yesterday. The wife charged that her husband, who is a member of the District Supreme Court yesterday, left her to play golf, and investigations by private detectives, she said, revealed that he was associating with the correspondent named.

The Scotts were married in New York City, September 26, 1924, according to the complaint, and the wife charged that her husband had been in conference with Speaker Longworth, Majority Leader Wilson, Vice President-elect Curtis and Senator Watson. It was agreed at a conference that the reappointment bill would be pressed at the extra session of Congress.

Senator Vandenberg came back and told the Senate about the plans for passing the reappointment bill as the extra session, and asked for unanimous consent to have this bill and the census bill recommitted to the commerce committee. Senator Copeland (Democrat), New York, congratulated Vandenberg on his fight for reappointment, but at the same time chided him for abandoning the fight just when he could see "the whites of the enemies' eyes."

At this stage Harrison and Black abandoned their filibuster and a new filibuster was started by Senator Dill (Democrat), Washington, who objected to the item of \$150,000 for survey of the proposed Nicaragua Canal.

Senator Robinson (Democrat), Arkansas, offered an amendment designed to throw the \$24,000,000 prohibition item and the \$75,000,000 tax-reform item in the first deficiency bill back into conference.

**Six of French Crew  
Lost Off Barbours**

Cherbourg, France, Feb. 27 (U.P.).—Six members of the crew of the French steamship, St. Malo, were drowned today when the vessel was wrecked in fog and storm off Barbours. Seven others reached Cherbourg, but one died after reaching the port. The St. Malo left here for Havre Tuesday.

**Father of Lenglen  
In Serious Condition**

Nice, France, Feb. 27 (U.P.).—Suzanne Lenglen's father was reported critically ill yesterday morning when a dress which he was wearing had become soiled. Lenglen underwent a serious operation a year ago.

**Woman Burned While Cleaning Dress.**

Mrs. Ernest Parker, 45 years old, of 1642 Irving street northwest, was injured yesterday morning when a dress which she was cleaning in the kitchen of her home with gasoline was ignited, burning her about her arms and face. Fire Squad No. 2 was called and gave first-aid treatment.

## HOUSE GROUP HALTS HEARINGS ON TARIFF

Ground Work for Revision Is  
Laid by Committee; 1,100  
Witnesses Heard.

### FARM RELIEF TO COME UP

(Associated Press.)

The ground work for tariff revision—one of the two major problems to be considered in the early days of the Hoover administration—was completed last night with conclusion by the House ways and means committee of seven weeks of continuous public hearings on the subject.

Republican members of the committee will meet in executive session Saturday to map out a program for subcommittee sessions which will be held behind closed doors. These subcommittee sessions will make recommendations as to specific changes to be effected.

The week-end also will find the House agricultural committee gathering to consider plans for drafting a farm-relief program, enactment of which, along with tariff revision, were two of the campaign promises of the incoming President.

Open hearings by the ways and means committee were closed after the submission late yesterday of proposals by the Treasury Department for revision of various administrative provisions of the tariff law.

Approximately 1,100 witnesses were heard after the hearings opened January 7. Most of them urged higher duties. As is the plan, the committee to change only those rates outside the agriculture schedules, where world conditions are shown to have been so altered since the 1922 law was written as to warrant increased protection, it is conceded that a majority of the proposals received will be ignored.

Committee members, however, said all suggested revisions would be considered, as this would enable a better picture of the situation to be obtained. It is the plan that all bills to be filed on the question must be submitted by March 9 if they are to be printed in the Record.

## FILIBUSTER HALTS FEDERAL PAY BILL

Continued from page 1.

Federal employees the raises they were entitled to under the Welch act.

The Brookhart amendment is virtually the same as the Brookhart bill to correct the Welch act. It provides a \$120 raise for those employees who got only a \$60 raise, and a \$200 raise for those who got only \$100.

In the course of the debate last night everything imaginable was discussed, including the Sharkey-Stirling fight in Miami. The result of the debate was announced by Senator Norris (Republican), of Nebraska.

The Senate is undoubtedly very much interested in the fight tonight. I have been urged by my fellow senators to announce that Sharkey won the fight. He won on points, however, but lost on "knockout."

A wave of laughter followed the announcement.

The second deficiency bill came up in the Senate about 6 o'clock in the evening. Immediately, Senator Harrison (Democrat), of Mississippi, began demanding by every means in his power one of the 275 pages in the bill be read. Harrison is violently opposed to the bill to reappointment membership of the Federal Reserve Board.

Senator Black (Democrat), of Alabama, joined Harrison and read poems and resorted to other obstructionist tactics until 8:30 o'clock.

Agree on Fenn Bill.

In the meantime Senator Vandenberg (Republican), of Michigan, chief sponsor of the Fenn reappointment bill, had been in conference with Speaker Longworth, Majority Leader Wilson, Vice President-elect Curtis and Senator Watson. It was agreed at a conference that the reappointment bill would be pressed at the extra session of Congress.

Senator Vandenberg came back and told the Senate about the plans for passing the reappointment bill as the extra session, and asked for unanimous consent to have this bill and the census bill recommitted to the commerce committee. Senator Copeland (Democrat), New York, congratulated Vandenberg on his fight for reappointment, but at the same time chided him for abandoning the fight just when he could see "the whites of the enemies' eyes."

At this stage Harrison and Black abandoned their filibuster and a new filibuster was started by Senator Dill (Democrat), Washington, who objected to the item of \$150,000 for survey of the proposed Nicaragua Canal.

Senator Robinson (Democrat), Arkansas, offered an amendment designed to throw the \$24,000,000 prohibition item and the \$75,000,000 tax-reform item in the first deficiency bill back into conference.

## NAVY SUPPLY BILL REPORT ACCEPTED

Filibuster to Block Funds for  
Cruisers Collapses in  
the Senate.

### GENERAL MEASURES LOST

(Associated Press.)

The conference report adjusting differences between the Senate and House on the Navy Department appropriation bill was adopted late yesterday by the Senate and sent to the House after a threat of filibuster had given leaders another scare.

House approval of the report will send the Navy bill carrying \$12,376,000 for starting the cruiser program, to the White House. Senator Blaine (Republican), Wisconsin, forced the report aside in the Senate early in the day, but when it came up later the opposition collapsed.

Faced with an apparent filibuster, leaders had armed themselves with a petition to invoke the seldom used cloture rule shutting off debate. But with a night session appearing as a possibility, the opposition yielded and a vote was permitted.

The naval bill provides \$200,000 for starting work at once on the first five of the fifteen cruisers. Another \$300,000 would be available after July 1 for beginning the second complement of five cruisers and the airplane carrier.

With the Navy supply measure finally out of the way leaders breathed a sigh of relief. It was the most controversial of the three appropriation measures awaiting disposition. However, there is the prospect of a protracted dispute over the Interior Department bill.

This measure has been passed by both the Senate and House, but there is conflict between the two branches on a House provision to authorize the Secretary of Interior to condemn any property in national parks. Senators Walsh and Wheeler (Democrats), Montana, are opposed to the provision.

Approval of the bill by the Senate is the intention of Senator Curtis, of Kansas, the Republican leader, to give the vital appropriation bills full right of way to assure their disposition and avoid their consideration in the extra session.

Senator Vandenberg (Republican), Michigan, in charge of the bill for reappointment of the House membership, announced he would call that measure up as soon as the supply bills were acted upon but leaders have little belief it will reach a vote.

Virtually all general legislation, except the bill of Senator Watson (Republican), Indiana, to extend the administrative powers of the radio commission for another year, has been abandoned in the drive for adoption of the necessary supply measures.

Senator Watson is prepared to invoke the cloture rule on the radio bill if necessary. However, any right legislation of a controversial nature appears to be doomed.

During debate on the naval bill Senator Jones, Republican, and Dill, Democrat, both of Washington, protested against failure of the House conference to accept an amendment of the Senate to appropriate funds to continue an extension of dry dock No. 2 in Puget Sound.

## Relapse Suffered By Charlie Chaplin

Doctors Remain With the  
Screen Comedian as Con-  
dition Is Held Serious.

Los Angeles, Feb. 27 (A.P.).—A sudden relapse accompanied by a temperature of 101 degrees today caused Dr. Cecil Reynolds, noted brain specialist, to remain at the bedside of Charlie Chaplin, film actor, throughout the morning. Chaplin was stricken with ptomaine poisoning on Monday. Dr. Reynolds said Chaplin had developed intestinal influenza and that his condition was "serious."

Dr. Reynolds said he was at the actor's studio offices, had remained with Chaplin throughout last night and today two trained nurses were called to the actor's home.

Chaplin fell suddenly ill Monday as he was dressing in his studio to go on "location" in a new picture. He collapsed and was taken to his home, where it was announced he was suffering from ptomaine poisoning.

Chaplin had been in the hospital since the death of Woodrow Wilson.

The President is spending a large part of his time in autographing photographs, the requests for which recently became so numerous that the President was forced to have applicants for his autographs submit their own pictures.

Mr. Coolidge has declined a proposal made by broadcasting interests. It was learned yesterday that he deliver a farewell address by radio Sunday evening. With so many things to be done before March 4, the President is said to feel he would not have time to prepare such an address. Furthermore, he is to entertain at a dinner at the White House this evening Mr. and Mrs. Hoover, and Vice President-elect Curtis and his sister, Mrs. Edward H. Gann.

Another 24 hours of the last few they are to spend in the White House found the President gradually bringing to a close the business of his administration and Mr. Coolidge in command of a corps of servants and workers preliminary to moving to Northampton.

Although it is his last, the President is putting in one of the most strenuous weeks of his administration. Yesterday he received and said farewell to a number of Government officials and friends. Among the callers was Chief Justice William Howard Taft, who just twenty years ago was preparing to assume the Presidency. The Chief Justice bade the President welcome to his company as former President of the United States, a distinction which he has possessed

alone since the death of Woodrow Wilson.

The President is spending a large part of his time in autographing photographs, the requests for which recently became so numerous that the President was forced to have applicants for his autographs submit their own pictures.

## BYRD TAKES A HAND IN WAR ON ABATTOIR

Asks Serious Consideration of  
Projects That May Hinder  
Federal Plans.

### PERMIT IS SOUGHT TODAY

Stormed by an avalanche of objections by high Government officials and many prominent organizations in regard to the proposed location of a slaughter house in Arlington County, the board of supervisors of the county will be faced with the problem today of granting a permit to the N. Auth Provision Co. of Washington for building of the abattoir.

The meeting of the board today at the Arlington County courthouse has been anticipated as the time at which the permit will be acted upon, but reports last night from members of the board of supervisors indicated the date for making a decision would be deferred. Chairman Edward Duncan of the board, said he believed further hearings would be arranged, at which opponents of the location for the abattoir would be asked to testify.

Byrd Urges Serious Consideration. One of the last-minute opinions on the proposed slaughterhouse came from Gov. Harry F. Byrd of Virginia, who wired the supervisors last night advising them that "serious consideration should be given to see that nothing is done on the Virginia side of the Potomac River to interfere with projects contemplated for further improvement of the section by the Federal Government."

Secretary of Agriculture W. M. Jardine wrote to the board yesterday advising erection of the abattoir at a distance of at least 1 mile from the proposed Mount Vernon memorial highway. Mr. Jardine said he would make this recommendation to the Arlington County zoning commission at once and ask the board to defer action on the building permit until the zoning commission has acted.

Secretary Jardine also pointed out that the United States commission for the celebration of the 200th anniversary of the birth of George Washington, in approving the route for the proposed Mount Vernon highway, specified that the area contiguous to the proposed route be restricted so as to prevent the invasion of undesirable industries. He termed the abattoir an undesirable industry.

Other Cabinet Members Act. Secretary of War Davis and Secretary of the Navy Wilbur, acting on behalf of the Arlington National Cemetery, told the board in a letter that they would be gratified to see the projected site of the plant disapproved.

Opposition was also expressed in resolutions adopted yesterday by American Legion posts, by the Citizens Association of Lyon Village, Va., and several other organizations and citizen bodies of Arlington County. Expressions opposing the granting of the permit were also received from Representative R. Walter Moore of Fairfax County, Va., and members of the National Capital Park and Planning Commission.

Col. Charles T. Jesse and Carl Marshall, counsel for the N. Auth Provision Co., of Washington, said last night that they were prepared to file the application for the permit today.

This outburst of opposition followed threats from Chairman Wood of the House appropriations committee, that construction of the Arlington Memorial Bridge across the Potomac River between Washington and Arlington, Va., may be suspended if the slaughter house is built near the route of the prospective Memorial highway.

In event the matter comes to a fight today, Capt. Crandall Mackey, counsel for the opposition, will be on hand to lead the forces against the proposed location for the abattoir.

The Arlington County courthouse is expected to be filled today with delegations opposed to the plant.

### Day in Congress

**SENATE.** Met at 11 o'clock and was still in session early this morning. Passed Stalker bill to establish a farmers' produce market in the Southwest section.

Approved conference report on the Navy appropriation bill.

Adopted resolution to continue investigation of Indian affairs. Public lands committee voted to turn over to the Attorney General the investigation of the Salt Creek oil leases.

Concluded in House amendment to Dale-Leibach bill to liberalize civil service retirement act and sent measure to President.

**HOUSE.** Met at noon and adjourned at 5:15 until noon today.

Adopted a rule to take up the Jones bill today. The bill increases the penalties for prohibition violations.

Passed the Cramton bill providing for acquisition of park lands in and near the District of Columbia.

Adopted a resolution empowering a judiciary subcommittee of five members to investigate charges against Judge Moskowitz, of New York.

Voted down a proposal to consider an amendment to Section 5A of the national defense act, covering educational promotions.

Ways and means committee concluded hearings on the bill to revise the tariff act.

**Legislature of Quebec**  
**Beats Equal Suffrage**

Quebec, Quebec, Feb. 27 (A.P.)—A bill to give the women of Quebec the right to vote in provincial elections was defeated in the Quebec legislative assembly today by a vote of 80 to 16. The billoting showed a gain of five votes for the cause of suffrage as compared with last year.

### PICKED FOR POSTS IN CABINET

James W. Good (left) and William D. Mitchell, who are slated for Secretary of War and Attorney General, respectively, in the Hoover Cabinet.

## 9 HOOVER CABINET SELECTIONS MADE; 8 KNOWN DEFINITELY

CONTINUED FROM PAGE 1.

Cabinet, and quite probably much will be heard about it for some time to come. It was authoritatively learned that he was offered the governorship of the Philippines. This he declined. He was not offered Secretary of War.

Should he reconsider in the next few days the indications are that this post will still be open to him. There is no reason to expect that he will do so. Unless he has already left, he will leave today for New Mexico to carry on the work of his present post.

**World War Figure.**

His return to private practice will quite likely mean the end of the ambitious political career which was given considerable momentum after the World War. He can hardly expect anything at the hands of the New York State organization as he has never played ball with it. His future lay in the national field and through it he might have forced the organization powers in New York State, sooner or later, to recognize him for high state honors. They are not likely to do it now. The field there is already overcrowded.

Donovan's friends stated everything on the recent campaign. It was a gamble and they lost.

Good's name has been floating about in connection with the war post for several days, during which the hardy politician blandly assured inquirers that he could not give up his law practice. Well, he has decided to make the great sacrifice.

**Was Western Manager.**

From this meager beginning Good developed a Nation-wide organization, one that was unquestionably sufficient to get the nomination for Mr. Hoover. Then after the nomination he was placed in charge of the Western division, with headquarters in Chicago. There, from a place high atop a skyscraper overlooking Lake Michigan, he directed activities out over the great feed bowl and never once lost his poise. Never did farm uprisings and reports of them worry him. Only once was Mr. Hoover given reason to concern himself about the situation out there and that was not by Good, but by Senator Borah, who got so excited that he urged Mr. Hoover into a promise of an extra session of Congress.

Not so with Good. He knew his middle West and Mississippi Valley. This is probably the best explanation of his selection, because the War Department's nonmilitary activities are largely centered in these sections and will be more so with the further development of inland waterways. Then, too, Good is a lawyer, not the kind that pleads cases before courts but one that has a lot to do with official Washington.

Both Good and Brown are what might be called the political selections of the Cabinet. It was learned some time ago that the organization Republicans were insisting that they get at least two places. They did.

**Blame "Black Cavalry."**

Neither choice is likely to be very popular with the friends of Col. Donovan. Rightly or wrongly, they attribute much of Donovan's failure to land to these two men. In the political spitfire yesterday much was heard of the "black cavalry troop" being responsible. This is the term the Democrats apply to Ohio politicians, of which Brown is one.

If the Democrats can get any comfort out of Mitchell's selection the indications are that Mr. Hoover is willing to let them do so. It was said yesterday that he voted for Hughes, Coolidge and Hoover. He may also have voted for Harding. So his Democracy is way below the skin.

It is not believed that Secretary Davis will serve the bill war years of the Hoover administration. He is remaining over, it is believed, because the

## REAPPORTION MOVE DEFEATED IN SENATE

Members Whose States Face  
Loss of Seats Win by  
Filibustering.

### CENSUS BILL LAID ASIDE

(Associated Press.)

Overwhelmed by a small but insistent group of opponents, the friends of the bill to reapportion the membership of the House admitted defeat in the Senate last night and acceded to a gentlemen's agreement not to press for a vote on the measure this session.

The filibuster was recognized by Senator Vandenberg (Republican), Michigan, in charge of the reapportionment measure, and he announced his willingness not to block other legislation by insisting on bringing the bill up for discussion.

In making the announcement, however, the senator declared he had been assured by the highest authority that the bill would be brought out at the special session, and he insisted that Congress at that time recognize the constitutional requirements for reapportioning the House members.

Led by Senator Harrison. The filibuster was threatened by a small group of senators, led by Senator Harrison (Democrat), Mississippi, whose State would lose representatives under the proposed plan. They collectively announced, however, that they did not wish to be placed in the position of fighting reapportionment generally, but only the particular plan that had been proposed.

The methods of attack used by the filibustering group was to demand a minute explanation of and a roll call vote on every item in the second deficiency bill, which the Senate had under consideration.

**Ability Is Unquestioned.** The ability of the group to keep this measure before the Senate until adjournment next Monday by the method they had adopted was recognized by Senator Vandenberg, who said he would not assume personal responsibility for defeating appropriations for important Government undertakings by insisting that the reapportionment bill be taken up.

At the same time that the reapportionment bill was laid aside, the Senate also agreed not to bring up a measure to provide for the taking of the 1930 census. Upon the basis of this census the Vandenberg reapportionment would have been made.

### Graf Zeppelin Pilot

Dies of Gas Poisoning

Berlin, Feb. 27 (U.P.)—Walter Scherr, helmsman on the Graf Zeppelin on its round trip to America last fall, died today of gas poisoning. He was poisoned during a recent test of a free balloon at Friedrichshafen, when he climbed into the balloon's chambers to clear tangled lines and avert disaster.

## PROSECUTION NAMES 4 NEW ASSISTANTS

Irvin Goldstein, A. G. Lambert,  
J. R. Kirkland, J. F. Hughes  
Join Rover's Staff.

## CHIEF CLERK IS APPOINTED

Appointment of four new assistant district attorneys was announced yesterday by District Attorney Leo A. Rover. The new prosecutors are Irvin Goldstein, Arthur G. Lambert, James R. Kirkland and James Francis Hughes. Goldstein, a native of the Capital, was promoted from chief clerk of the prosecutor's office to his new post. He is 26 years old, a graduate of Emerson Institute and Georgetown University Law School, and a member of the District Bar Association since 1925. He lives with his father at 310 Taylor street northwest.

### Biggins New Chief Clerk.

To fill the vacancy created by Goldstein's promotion, Philip Biggins, secretary to Mr. Rover, was made chief clerk, and Milford P. Schwartz, a clerk in the office for several years, was promoted to the secretaryship. Hughes was born February 24, 1894, at Bristol, R. I., where he received his elementary and high school education. He was graduated from St. Charles College at Catonsville, Md., in 1917, and after service with the Naval Reserves during the war, attended the law school of Catholic University. He was graduated from the law school in 1922, passed the District bar examination the same year and has since been engaged in the legal practice. Hughes is married and has three children. He resides at 4312 Twelfth place northeast.

Kirkland, who is 25 years old, is a native of Wilmington, Del. He was educated in local public schools and received his law degree from George Washington University. He is a member of Potomac Lodge, No. 5, F. A. M., and the Phi Delta Phi and Delta Sigma Rho fraternities. Kirkland was a member of the special committee of the District Hoover-Curtis Club in the recent presidential campaign.

### Son of Local Attorney.

Lambert is the son of Wilton J. Lambert, prominent local attorney. He is a native of the District and received his education at Hill School, Pottstown, Pa. He served in the Army in the World War and at the conclusion of hostilities entered Princeton University, from which he was graduated in 1922.

He then attended Harvard University Law School and was graduated in 1925. The following year he passed the District bar examination and has since been engaged in practice with his father.

## Messenger Boy Bruised When Auto Hits Bicycle

Clyde Wilson, 15-year-old messenger, of 1304 Thirteenth street northwest, suffered minor cuts and bruises last night when the bicycle he was riding was in collision with an automobile at Ninth and G streets northwest. Ray Middaugh, of 1028 Connecticut avenue northwest, operator of the machine with which Wilson was in collision, took the boy to Emergency Hospital, where he was treated by Dr. Walter Gladding.

## Furloughs Allowed For Jewish Holidays

To permit soldiers of Jewish faith to participate in celebration of the Passover, Secretary of War Davis has directed that they be granted furloughs for such time as may be deemed necessary to permit them to be at their homes or places where celebrations are held, from noon, April 23, to midnight, April 27.

## Boy Bicyclist Injured In Collision With Auto

Dominic Pinto, 16 years old, of 725 Eleventh street southeast, riding his bicycle early yesterday morning behind an automobile operated by Elmer Heath, a United States policeman stationed at the Capitol, was injured when he collided with the automobile as Heath made a left turn at the south side of the Capitol grounds southeast. He was taken to Casualty Hospital by Heath and treated there by Dr. Louis Jimal for lacerations to his head and body bruises.

## 3 Speakers Heard At Unity Gathering

## First Congregational Church Conference Told of Steps for Understanding.

The second of a series of three world unity conferences was held last night at the First Congregational Church, Tenth and G streets northwest, with Dr. John Herman Randall, Alfred W. Martin and Rabbi Abram Simon delivering addresses.

Dr. Randall stated the purpose of the conference, which is to create harmony and understanding among religions, races, nations and classes. Rabbi Simon, of the Washington Hebrew Congregation, talked on "Highway or Barrier."

The most practical thing to do to promote "The New Internationalism," which was his subject, Dr. Martin said, is to try to "overcome the feeling of objection we have to people of other nationalities than our own."

## MORE FUNDS URGED FOR UNDERSEA AIDS

Senators Favor Liberality in  
Providing for Safety  
on Submarines.

## LAUD CONSULTING BOARD

(Associated Press.) Adoption of a "more liberal policy" toward supplying funds necessary to install safety and salvage devices on undersea craft, was recommended to the Senate yesterday in a report of a subcommittee which investigated the sinking of the submarine S-4.

The report criticized the Navy Department for not availing itself of the services of the Navy Consulting Board, consisting of some of the greatest engineers and scientists in the world, as much as it should have. It recommended that the board meet more frequently, declaring if it had, "instead of meeting only once a year, more life-saving and salvage devices could have been developed."

"This has been shown," the report said, "by the results of what has been accomplished since the accident." The S-4 sank off Cape Cod December 17, 1927, and 40 members of its crew were lost, in a collision with the Coast Guard destroyer Paulding.

The report pointed out that a board of technical experts, appointed by Secretary Wilbur in June, found that the "most frequent cause of foundering is collision," and recommended adoption of four methed lights or some "equally distinctive" night mark for submarines and that the question be placed before the International Conference on Safety of Life at Sea, to be held in London, probably in April.

The report also recommended use of warning signals when submarines are operating on trial courses, more sets of lifting pontoons on the Atlantic and Pacific coasts, and installation of lifting eyes on the craft.

## Child, Felled by Auto, Treated at Hospital

Ethel Ferber, 9 years old, of 918 M street northwest, suffered lacerations to her scalp and ear yesterday afternoon when she was struck and knocked down by an automobile while crossing at Seventh and P streets northwest.

Howard Reynolds, colored, 38 years old, of 261 Seventeenth street south-

east, driver of the machine that struck the child, took her to Freedman's Hospital, where she was treated by Dr. Richard McMahon. Her condition is not serious.

## BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## COL. H. L. NEWBOLD TO BE BURIED TODAY

Full Military Honors Will Be  
Paid to the Artillery  
Staff Chief.

## MEMBER OF CLUBS HERE

Death from pneumonia at St. Luke's Hospital, Chicago, Tuesday, of Col. Henry Lowe Newbold, chief of staff of Field Artillery in the Sixth Corps Area of the Army, and brother of Fleming Newbold, business manager of the Washington Star, was announced yesterday at the War Department.

Burial with full military honors will be in Rock Creek Cemetery this morning, following funeral services at 11 o'clock at Rock Creek Chapel, the Rev. Franklin John Bohanan officiating.

Two brothers, Fleming and John L. Newbold, of this city, and a son, William T. Newbold, Philadelphia, survive Col. Newbold, who was born in Santa Barbara, Calif., in 1876.

He was graduated from West Point in 1898, and commissioned in the Artillery, reaching the permanent grade of colonel in 1919. He saw active service in the Philippines, in the Vera Cruz expedition, the Mexican punitive expedition, and in France, in the World War. He was a distinguished graduate of the school of the line in 1911, and a former military attaché to Turkey.

Since the World War he commanded the First Field Artillery Brigade at Camp Dix, N. J., the Seventh Field Artillery at Fort Ethan Allen, Vt., and the Eighth Field Artillery in Hawaii. He was a member of the Metropolitan, Chevy Chase and Army and Navy clubs of this city.

Funeral services for Mrs. Roberta Dyer Howard, 80 years old, who died Tuesday at the home, 1800 Lamont street, will be held at 10 o'clock tomorrow morning in Sacred Heart Catholic Church. A short service at the home of Mrs. Howard's daughter, Mrs. Robert A. Maurer, 2029 Park road, will precede those at the church. Burial will be in Mount Olivet Cemetery.

## UNITES FOR MRS. B. C. WERNER

Funeral services of Capital Resident to Be Held Tomorrow.

Funeral services for Mrs. Bertha C. Werner, a resident of Washington since childhood, who died Tuesday at the home of her daughter, Mrs. N. W. Dumont, 3147 Nineteenth street, will be held at 9 o'clock tomorrow morning in the Shrine of the Sacred Heart Catholic Church. Burial will be in Mount Olivet Cemetery.

Besides her daughter, Mrs. Werner is survived by a son, Elwood E. Werner, and nine grand children. She was the widow of J. William Werner.

## JOHN H. MUIRHEAD STRICKEN IN STREET

Superintendent of Letter Carriers Is Stricken Near  
His Home.

## WAS IN SERVICE 38 YEARS

After returning from a visit to his physician early last night, John Hope Muirhead, 58 years old, superintendent of letter carriers of the Postoffice Department, collapsed in front of his home, 88 S street northwest, and died before friends and relatives were able to reach him.

A neighbor saw Mr. Muirhead lying in the street and notified the family. Muirhead had suffered from high blood pressure and heart trouble for some time and his sudden death was attributed to these causes. He had made frequent visits to his physician for treatments and had made a call at the doctor's on his way home from work last night.

Mr. Muirhead was born in Washington and had been with the Postoffice Department for 38 years. He was the son of the late William Muirhead. He was a member of the Hamlin Methodist Church, a trustee of the church and its recording secretary. He is survived by the widow, Mrs. Mae Muirhead; two daughters, Grace Muirhead, of this city, and Mrs. Frank C. Hels, of Chicago, and a sister, Miss Grace Muirhead. Arrangements for the funeral are being made.

## WOMAN WHO TAUGHT HERE 34 YEARS DIES

Miss Mary Charlotte Priest,  
National Park Seminary  
Official, Succumbs.

## FINAL RITES SATURDAY

Miss Mary Charlotte Priest, assistant dean of the National Park Seminary at Forest Glen, Md., and for the past 47 years a resident of Washington, died yesterday afternoon at Garfield Hospital after a long illness.

Funeral services will be held Saturday afternoon at 2 o'clock at the All Souls' Unitarian Church, Sixteenth and Harvard streets northwest. The Rev. U. G. E. Pierce will officiate. Burial will be at Rock Creek Cemetery.

She was the daughter of the late George A. and Mary Estelle Priest, of New York City, and was born in Lowell, Mass., graduating from Columbia University.

Miss Priest was a member of the faculty of the National Park Seminary for the past 34 years, as instructor, assistant dean and sorority adviser. She left her work there in January because of her illness. She was a member of the Montgomery County Chapter of the Daughters of the American Revolution, the Eltophos Society, the Columbia Historical Society of Washington, the English-Speaking Union, and was the first president of the Columbia Women.

She is survived by two sisters, Miss Lida Priest, of Duluth, Minn., and Mrs. Perry Thompson, of Yonkers, N. Y.; two nieces, Mrs. R. A. Braden, of New York City, and Miss Margaret Thompson, of Yonkers, and three nephews, Robert M. William T. and Dudley W. Thompson, all of Yonkers.

## WILLIAM H. SNYDER RITES.

Funeral services for William H. Snyder, 37 years old, a native of Washington and for several years a telephone operator at the Central Bureau of the Police Department, who died yesterday at the late residence, 2907 Twelfth street northeast, will be held Saturday morning at the St. Epiphany Church. Burial will be at Mount Olivet Cemetery.

# "I light a Lucky and stay slender—

Hope Hampton

Hope Hampton,  
Famous Star of the Opera,  
Stage and Screen.

"Luckies have helped me win the laurel crown of my musical career—singing in opera. Stage presence demands a slim, youthful figure. Rich foods cannot tempt me. I light a Lucky and stay slender. The toasted flavor of a Lucky soothes the craving for goodies. Then, too, a Lucky never irritates my throat. Even, after smoking many, my voice is still clear."

HOPE HAMPTON

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that in the year 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

Reach  
for a  
Lucky  
instead of  
a sweet.

THE VARE CASE.

The Senate persists in denying to Pennsylvania its equal representation. Because of Senator-elect Vare's illness the special investigating committee has made little progress, and now it has been authorized to continue its investigation during the next Congress. Little progress has been made toward settling the contest between Mr. Vare and William B. Wilson for the Senate seat. In the meantime Pennsylvania has but one senator—a good one, equal in ability to two from several States that might be named, but nevertheless only one.

When the Senate departed from the established rule by refusing to seat a senator-elect presenting authentic credentials it made a sorry mess of the situation. It took the position of finding Mr. Vare guilty before he had been investigated. The committee has either failed to find proof that he is guilty or it has lost interest in his case. The Wilson contest, also, seems to have been sidetracked, and it is probable that Pennsylvania will have been deprived of its constitutional rights for at least three years before either Mr. Vare or Mr. Wilson will be seated or a vacancy declared.

Mr. Vare's offense, in eyes of his critics in the Senate, was that he spent too much money in his campaign. But he was elected to the Senate, nevertheless, according to the official returns. The people of Pennsylvania passed judgment upon his case. The orderly and constitutional method of procedure called for the seating of Mr. Vare, and then, if the Senate should have found that some one else was elected, it could have unseated Mr. Vare. By that procedure the right of Pennsylvania to elect a senator of its own choosing would have been respected. But the Senate "went off half-cocked" by assuming that Mr. Vare was guilty of some kind of crime, although the law has not fixed a limit upon campaign expenditures. Now, instead of trying to put itself right, the Senate postpones the whole matter and thereby deprives a State of its constitutional rights.

HELP INDIANS TO FIND WORK.

Identical bills have been introduced in the Senate and House providing for the creation of an employment service for Indians. The Budget Bureau has given its approval to these bills. Commissioner Burke, of the Indian Office, favors them. The Secretary of the Interior asks that the legislation be enacted.

The Indians, Secretary West says, are now developed to the point where they are ready to participate in the industrial life of the Nation. The younger Indians have fair educations and considerable industrial training. They are ready to be fitted into the scheme of a workaday world. The West is teeming with such activity as to offer opportunities for unskilled labor. The Indian has in him the making of a good workman, but he is lacking in experience. He does not know how to get a job. The reservations are far from labor markets. The best service the Government can render to the Indians is to put them in touch with employers of labor.

The Government in theory always has favored the assimilation of the Indian along with the other racial groups that have gone into the melting pot. Circumstances, however, have led to his isolation on reservations out of contact with civilization. He has remained a person apart. The conditions that made it possible for him to live happily as of old have disappeared. He must fall in step with the civilization about him. This means that he must go to work.

When an Indian is established as a wage earner he ceases to be a ward to the Government. So far as he is concerned the Indian problem is solved. Were all the young Indians so established, a consummation that is quite possible, there would remain as wards only the older aborigines. Their numbers would steadily decrease, and this task of the Government would approach the vanishing point.

The bill authorizes an appropriation of \$50,000 to be used in finding work for Indians. This is so obviously the right and practical thing to do that no time should be lost in getting started. Despite the approach of the end of the present session of Congress this bill should be passed.

FEDERAL PROBATION SYSTEM.

In a recent report of the House committee on Federal penal and reformatory institutions it was pointed out that 5,000 prisoners are being held in overcrowded jails because the Government has not worked out a comprehensive parole system. It was found that only 92 of the judicial districts have probation officers. As a result many youthful offenders were incarcerated with hardened criminals, when they might have been at liberty under strict supervision of probation officers.

Probably it was this information which prompted the House to pass the Federal proba-

bation act on Monday. If the Senate can find time to pass the bill, it will make possible an improvement in the administration of justice that has been needed for a long time. Probation is no longer an experiment in America, but as yet it has never been systematically applied to Federal prisoners. There is no unity of action among the probation officers now serving, and they have inadequate supervision and direction. The measure passed by the House provides for salaried officers appointed by Federal judges to investigate cases in which probation is possible and to look after those who are so released. It is a definite step toward reforming youthful criminals and others who have made a misstep and do not deserve the punishment meted out to hardened characters.

The bill provides also for a probation director in the Department of Justice who will have general supervision over the probation system. He will investigate the work of probation officers, keep statistics, and coordinate the whole plan of enforcing probation laws. This will give the system central control, which it has never had before and should bring about notable improvements.

The ultimate success of this legislation will depend upon the type of men called into the probation service. The original bill called for appointment of probation officers by competitive examination under the rules of the civil service system, but it was amended in committee so as to eliminate this feature. Representative La Guardia made a minority report asking the House to reinstate the civil service provision, but the committee amendment was accepted. When the bill goes to the Senate, it is to be hoped that this or some other provision for the selection of only qualified probation officers will be added.

MAKING THE DISTRICT THE GOAT.

The House yesterday, by unanimous consent, passed the Cramton measure under which the Government would "lend" \$16,000,000 to the District for the purpose of acquiring parks which it does not need and can not afford. The Senate has yet to act on the bill.

Compared with other municipalities Washington has set aside more than the average area for recreational purposes, but the seat of Government belongs to all the people and should be developed in the grand manner. But as a municipality Washington can not afford to make greater expenditures for parks. If as the seat of Government it is held desirable that a greater park area should be purchased and set aside, it is clearly up to the Government to share in the cost. This fact is recognized in another clause of the Cramton bill, by which \$7,000,000 is made available to be expended on a 50-50 basis with Maryland and Virginia for a comprehensive park development surrounding the National Capitol.

The Cramton bill would force the taxpayers of Washington to pay for parks that the Nation needs and wants. What could be more unfair, inequitable and unjust? It is to be hoped that the Senate, which has come to be recognized as a friend of the District, will defeat the bill.

FOR SAFETY AT SEA.

Politics gave way to statesmanship when the conferees of the Senate and House met to iron out their difficulties on the bill providing load-line regulations for American shipping. The bill will go to the President in a form that is not entirely satisfactory, but rather than allow the measure to fall entirely the House conferees wisely sacrificed the amendments and secured a pledge from the Senate conferees to work for perfection of the measure at the next session.

The bill is designed to promote greater safety on the seas, by limiting the depth to which a hull may be loaded. Similar legislation has been adopted in other maritime nations, and American vessels have been at a disadvantage because they had to comply with requirements of foreign ports, while their home ports had no such requirements. As it was agreed upon in conference, the bill will remove this handicap from the American merchant marine in the overseas trade, but will not extend load-line legislation to coastwise trade.

The bill, as passed by the Senate, applied to foreign trade only. When the bill went to the House its provisions were extended to coastwise trade, with certain exceptions. The House was almost unanimous in this action, and the conferees were personally in favor of extending the legislation to coastwise trade. But understanding that it was impossible to secure a hasty agreement of the Senate to the amendments, the conferees agreed to drop the amendments for the present. Therefore, they adopted a resolution declaring their intention to extend the benefits of load-line regulation to all American shipping at the earliest possible moment.

This action showed wisdom which is too often lacking in controversies of this kind. The benefits of the measure will be extended to foreign trade without further delay, and before the next regular session of Congress the Secretary of Commerce and the Shipping Board will investigate the advisability of including all shipping along the coasts and on the Great Lakes within the act.

If load-line regulation will promote the safety of foreign shipping, it will likewise be of benefit to the entire merchant marine. The good intentions of the conference committee should be followed by specific action, making all American ships safe so far as the load-line is concerned.

AMERICAN CARS ABROAD.

American automobiles are making headway against all competitors in the world market. Some 500,000 passenger cars and trucks were sold abroad last year, and yet the foreign field remains to all intents and purposes unoccupied territory.

Henry Ford is preparing to make a vigorous bid for the capture of the continental market. His assembly plant situated in the outskirts of Paris, capable of turning out 15,000 cars annually, went into its first full month of operation with the Model A in December. To meet the competition of Citroen, the "French Ford," the price of the cheapest Ford has been reduced to 25,700 francs (approximately \$1,004), or practically the same as the cheapest 4-cylinder Citroen, despite a 45 per cent tariff, and other Ford models will be priced to meet Citroen competition. Henry Ford's plans are taken as indicative of the drive on the European mar-

kets to be prosecuted by the entire American automobile industry.

Exports of automobile products during 1928 were greater than in any previous year, exceeding those of 1927 by 29 per cent and those of 1926 by 54 per cent. The aggregate value came to \$522,000,000, cars with a value up to \$1,000 accounting for 280,000 units valued at almost \$150,000,000, cars from \$1,000 to \$2,000 accounting for 76,000 units worth \$85,000,000, and those costing over \$2,000 accounting for 11,000 units valued at \$27,800,000. These cars were distributed in Canada, the Far East, South America, Asia and Europe, a goodly proportion being taken by the latter. This year the figures will be far greater, despite the fact that foreign manufacturers will leave no stone unturned to block the inrush of the American product.

Little is heard these days of the European automobile trust which, according to rumor, was to be formed to enable European manufacturers to meet American corporations on common ground. The idea, however, has not been abandoned. If Americans capture as much European business as they hope, the trust talk will be revived and it is not improbable that sooner or later, in desperation, European manufacturers will forget their national jealousies and differences, and form a combination. In the meantime, however, there is little to support European competition against the American car, except the high "horsepower" tax that reacts in favor of the small European motor, and the high tariff duties. Henry Ford has demonstrated that both can be surmounted, the first by building small motors for cars designed for the export trade, and the latter by absorbing the tariff charge in the price schedule. Not every manufacturer is as well able to do this as Ford, but the mere fact that he has done it indicates that it is not impossible.

"The next war will be infinitely more complicated." Yes, the Fords have a hand gear shift now.

It is worthy of note that at no stage of the proceedings has Mr. Mellon begun packing his things for shipment back home.

Up to February 1 President Coolidge shook hands with 703,623 persons, not counting official callers and those he greeted on vacations, which suggests that what the new President needs is not an electrical hobby horse but a hand-shaking robot.

A FEDERAL DEPARTMENT OF EDUCATION.

From the speech by Hon. L. M. Black, Jr., in the House of Representatives, February 26.

The gentleman who has just discussed the department of education bill is a little more frank on the subject than others who have favored it before the committee on education. He frankly believes that the educational problem of the country can be solved by Federal money; but the National Educational Association, and others, who have favored the bill in recent years have tried to steer away from the notion of large Federal appropriations. Originally, they wanted a Federal subsidy, but finally they could not get it they cut their bill in half and then asked for a Federal department of education. We who have opposed them have always believed that all they wanted in the long run was an appropriation, and the gentleman from Kentucky, in opening his remarks, called attention to the small appropriation that is made for the Bureau of Education, indicating that it is his desire that there be great sums of Federal money expended on education.

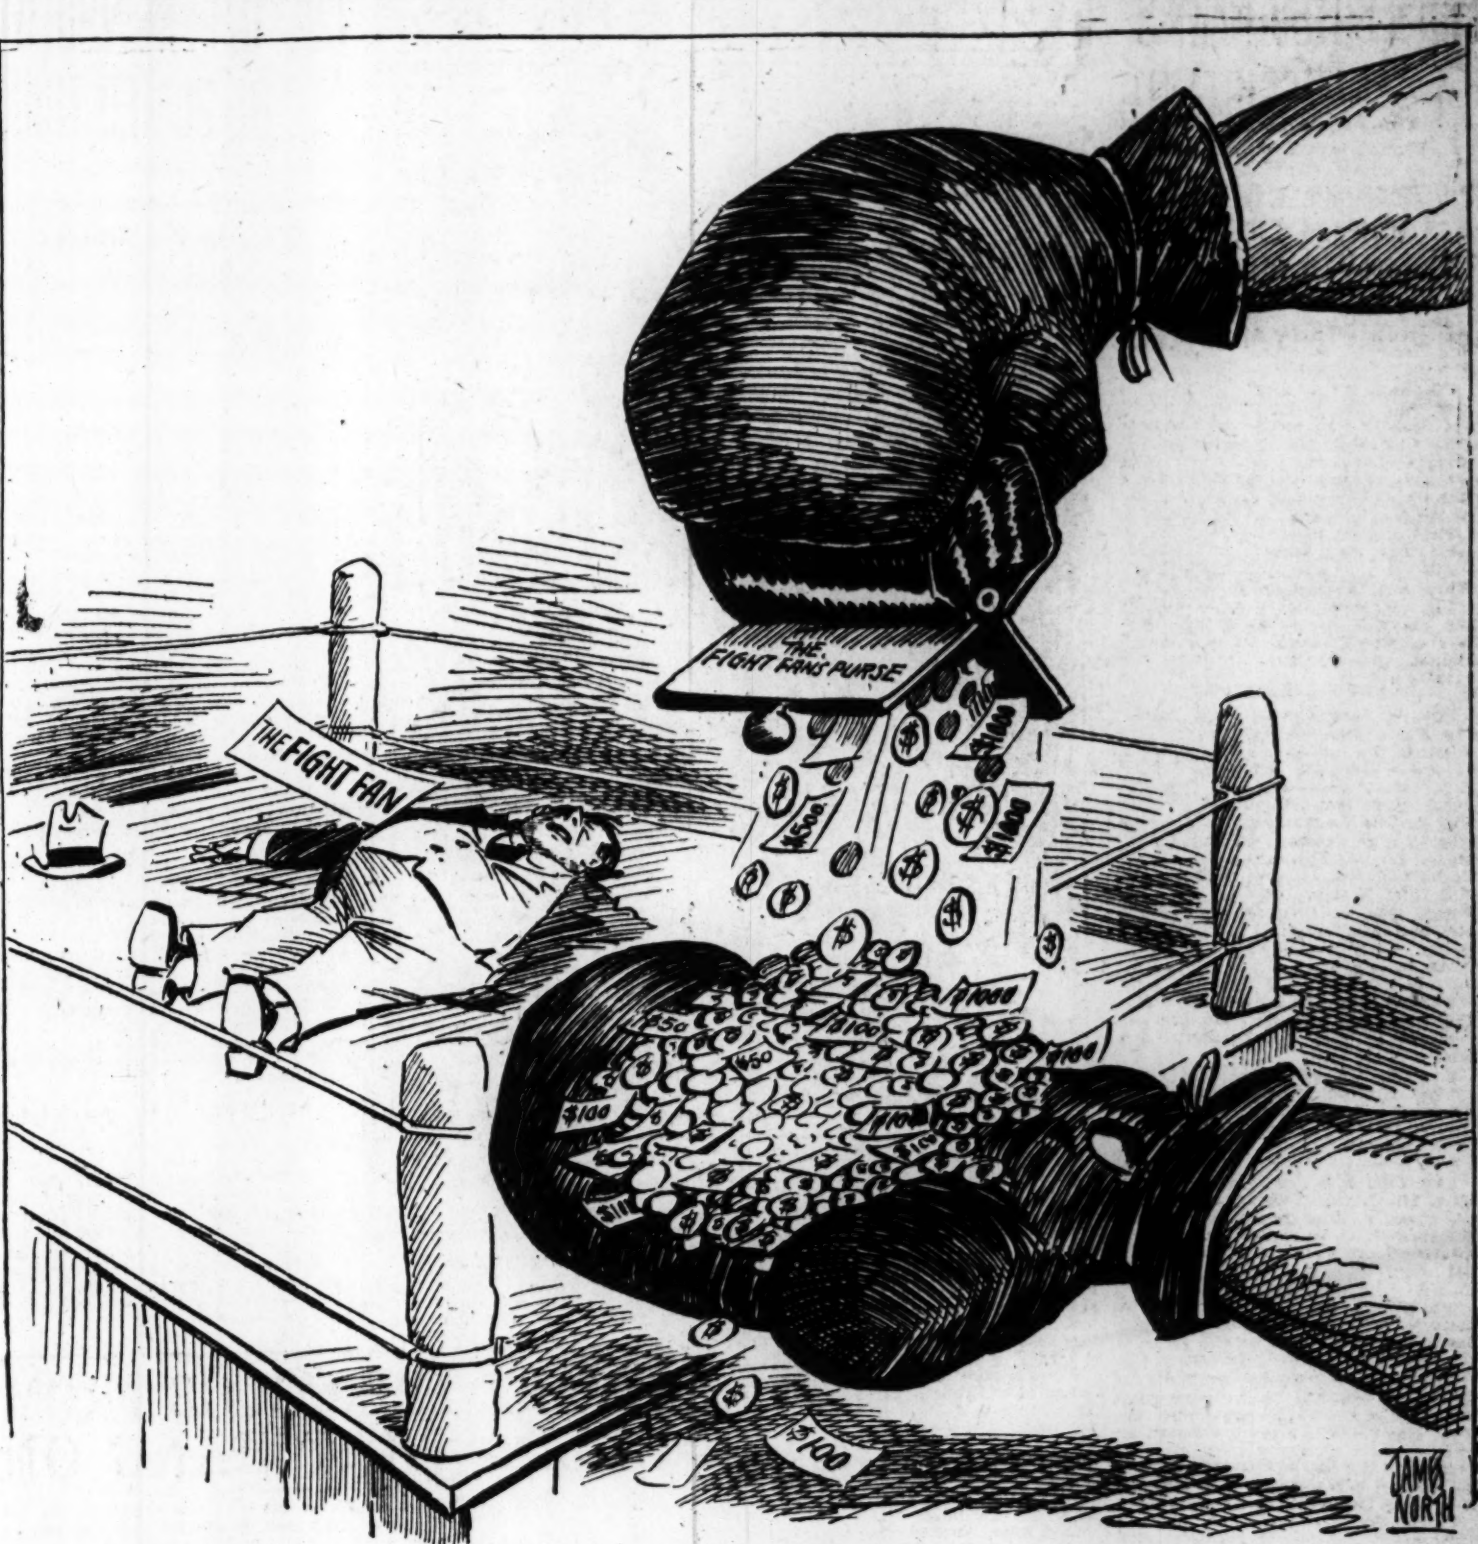

The truth of the situation is that the Federal Government is spending about \$60,000,000, if not more, per annum on educational projects and, according to the gentleman from Kentucky, that the States and cities are spending about \$2,000,000,000 on education today. My own notion of it is that it is nearer \$2,000,000,000 to 25,000,000 children. I ask the members of this House whether the States and cities are not affording liberal means of education when they are spending \$2,000,000,000 per annum on 25,000,000 children. In other words, it is costing the cities and States about \$80 per child for education.

The gentleman pointed out the difference between Russia and China and the United States and he called attention to the wonderful progress of the United States with respect to its schools. Then I say to him, let the Federal Government keep its hands off our schools; let our schools progress as they have progressed under local guidance; let not our schools be stagnated by the heavy hand of the Federal Government and let not the educational system of our country be reduced to the basis of the Russian educational system. It is Russia that has a national department of education or a Soviet commissioner of education, and if you read the provisions of the Russian program for education you can almost parallel them with the suggestions made in the various Federal department educational bills which have been before our committee.

The gentleman called attention to the political platforms on this subject, but in the last campaign the Republican platform was very silent on the subject of a department of education. As a matter of fact, the Republican platform did not say a word about a Federal department of education, showing that those who control the Republican party and the administration had realized, after their guidance of the administration, that a Federal department of education would be a very, very unwise proposition.

The gentleman spoke about the great organizations that support this bill, but we know how they get together; we know that the National Educational Association is a bellwether; we know that the National Educational Association herds these organizations into line and has them adopt stereotyped resolutions in favor of this bill.

The gentleman called attention to the deficiencies among our teachers. If the Federal Government is not going to standardize education, what is the Federal Government going to do about these deficient teachers? If such a plan were to be adopted, the Government would have to do something in the way of taking their licenses from them; it would have to do something which would stop them from teaching; and it would have to do something which would interfere with the State and city systems, or else it does not mean anything.

Counted Out.

LETTERS TO THE EDITOR.

Hard Drinking in Canada.  
To the Editor of The Post—Sir: The following from a correspondent in British Columbia may interest your readers:

"One sees so often the statement that Canada has solved the liquor problem by government control. To those of us who live here, the problem seems far from solved. In our little town the drink problem among boys under age is a great one. They get it whenever they want it and as much as they want. The drinking at the public dances is very great among both men and women. It is brought in cars and sold outside under the very nose of the policeman, who pays no attention. At P. M.—last Dominion Day, July 1, the town was wide open and all kinds of liquor sold openly in public, of course, absolutely against the law. It seems to me government control produces as much lawlessness and contempt of law as prohibition."

PERCY FOSTER HALL,  
Alexandria, Va., February 26.

Admission to Mount Vernon.  
To the Editor of The Post—Sir: I should like to bring to the attention of "American," whose letter appeared in today's Post, that there is no reason for closing Mount Vernon one day out of seven. The purpose in closing the place on Sundays is that picnickers would invade the place and make it a place of amusement and much damage might result.

Several years ago, when Masons were in convention here, they sent a request to the Indian association that 5,000 Masons be admitted to Mount Vernon free. The answer they received was that, rather than admit so great a number free they would prefer that a smaller number would visit Mount Vernon, so there would be less wear and tear.

We should take into consideration the fact that Washington's home is not built of granite or marble, as a public shrine should be. It is perishable and needs protection. Besides, Washington strictly observed the sanctity of the Sabbath during his life time, and it is fair to believe it would be against his wishes to open his beloved home to amusement seekers on the Sabbath.

There is probably not a resident or worker in all this city that does not enjoy a vacation or a Saturday half holiday, or who could not get off for half a day to visit Mount Vernon, and school children are admitted free at any time whenever accompanied by a teacher or chaperone.

L. M. C.

Country Doctors Needed.  
To the Editor of The Post—Sir: A rumor recently came to the ears of a country doctor that a family dwelling in an isolated community was in need of medical assistance. True to his calling, he set forth on his aid, and, after a weary trip on horseback, breaking through drifted snow over roads that were impassable to ordinary vehicles, he reached their cabin. Inside he found the entire family dead. They had died of influenza and starvation. Since there were ample food supplies in the house, he concluded that no member of the stricken family had vitality sufficient to prepare the food or even keep the fire going. The case is reported not from an impoverished European country but from northern New York State.

It seems incredible that in the United States, where medical science has made such great progress and where it is the frequent boast that competent medical attention is available to rich and poor alike, such a case should have happened. Twice, however, during January, the New York State Commission of Health reports that it received appeals for assistance in supplying medical service to towns in the northern part of the State. A similar

The Thief Surrenders All Legal Rights the Moment He Enters Your Premises

By ROBERT QUILLEN

SOME time ago the Supreme Court of these United States relieved the railroads of all responsibility for crossing accidents.

The decision is logical and sensible, as all law should be, for the train has an established track and schedule, well known to the public, and the automobile is an invader appearing without warning.

If necessary, the driver of the automobile must stop and leave his vehicle to investigate, for he uses the crossing only by sufferance and his rights end where they conflict with the right of the locomotive.

A similar logic and common sense must prompt the court's decision against drivers who use the left side of the highway, if ever a decision is asked.

Each driver has the legal and moral right to use one-half of the highway—the right half—but his rights end and he becomes an invader when he pulls over to the left side.

It is the common practice of all drivers, when their way is blocked by a slower vehicle, to pull over to the left side of the road and pass it. They are within their rights if the way is clear; but they use the left side of the road by courtesy only, as the automobile uses the railway crossing, and they are without any right at all if an approaching car needs that side of the highway.

Under all circumstances, the driver turns to the left at his own risk and peril, and if a collision follows, he alone is to blame.

American automobiles kill and maim more people every year than the A. E. F. lost in a like period during the war.

The butcher continues because each driver knows he will escape punishment if his recklessness results in tragedy.

Juries and law investigators describe these tragedies as "unavoidable accidents," but that is a foolish contradiction in terms.

All accidents are avoidable, for they are departures from the normal and right.

If a car wrecks, the driver has been drinking, or he was driving too fast, or he was on the wrong side of the road, or his brakes were useless, or he violated some common rule.

In every "accident" some driver is at fault, and a fault that results in tragedy is criminal negligence.

Most of the highway accidents result from driving on the wrong side of the road—usually in an effort to pass a slower car.

This most prolific cause of homicide will be removed when the law regards a car's presence on the wrong side of the road in the event of accident as conclusive evidence of criminal carelessness.

The burglar's presence in a house fixes his guilt, though he may steal nothing at all.

The man who places a bomb is guilty before the bomb explodes.

The driver surrenders all rights when he violates the rules, and the law must regard him as one willing to kill, for thus only can it discourage the butchery of the innocent.

(Copyright, 1929.)

and science became fully recruited on the side of the whale-fisherman.

This latter has reached its climax to date in the recent conversion of a huge, 12,700-ton ocean vessel, a liner in the Swedish-American trade, into the last word in whale catching and reducing equipment. Merely the rearrangement of this ship for its new purpose will cost something between two and three million kroner—a half to three-quarters of a million dollars.

Add that to the purchase price of the vessel and one begins to realize how many whales will be required to amortize such an investment during the life-time of the ship. There will have to be a slaughter and an extraction of oil on a gigantic scale, and it needs no great imagination to look forward to an early day when the activities of this and similar whalers will leave the oceans stripped of the entire breed of the balaeena.

Already the whale fishing waters have been restricted to a few sections of the Arctic and Antarctic oceans, and it is to meet the greater difficulties of a narrowing whale population that the big ship has been turned to that service. It will be so large that it will be able to handle the largest whale with ease and dispatch, and will be the first whaler ever in the service that will take an entire whale over the side and handle the carcass and extract its oil and other valuables entirely by machine power. The side handling is made possible by a kind of "dock" in the vessel's side that will serve to lift the ocean monster and that when the trying has been done, will serve as a huge tank for the extracted oil. Moby can not long escape the trying kettle.

Man the master is becoming entirely too masterful for Moby Dick, says the New Orleans Times-Picayune.

The whale of today is out of luck. It used to be that the giant of the seas had at least an equal chance with his human pursuer, and there was romance in the industry. The inequality set in when the hand javelin—the harpoon—was replaced by the gun, and later by the cannon, and when the chances of wind and weather of the sailing whaler were reduced by the entry of the steam-driven vessel into the whale chase. But all that was before the power of wealth

PRESS COMMENT.

Any way.  
Worcester Telegram: At any rate, the railroads are still doing a brisk business in hauling trainloads of new motor cars from manufacturer to dealer.

Just Think.  
Scottsville Citizen-Times: Just think what fun the belligerent nations will have in the next war in interfering with the radio programs of the enemy.

Poor Russia.  
Detroit News: "Russia," says a report, "is in the grip of an epidemic of tschakajohyt." First aid in this ailment calls for wrapping the patient warmly and sending for the prooferder.

Spare the Thought.  
San Diego Union: We may expect future wars to be deadlier and more expensive if the outlawry of war has the same effect on that prohibition has had upon liquor.

Recognition.  
Pittsburgh Post-Gazette: A New Jersey college is offering a course in ice cream making. The new style pharmacy is at last receiving worth-while recognition.

More to the Point.  
New Orleans Times-Picayune: A university lecturer has been telling how sails are rigged in Spitzbergen. But we imagine the public will be more edified to learn how sails are rigged in Wall Street.

If He Succeeds.  
Richmond Times-Dispatch: The State Department has announced that Elihu Root goes unofficially on his world court mission. If he succeeds, however, the Republican party in future campaigns will refer with great pride to this "achievement of the administration."

VOTRESSES.

Since a lady hunter is a huntress it sounds reasonable that a lady voter should be a votress, and assuming this to be the case we can say that the young votresses of the U. S. A. need not be envious of the suffrage rights that have lately been given to the ladies of Great Britain, observes the New Orleans Times-Picayune. In the U. S. A. the right to vote, though euphemistically speaking it is a "duty," is in fact a lightly sitting privilege. If the votress prefers to refrain and has no ambition to register and cast her ballot she may—and indeed very often does—do so without it being anybody else's business.

Not so in Britain! As instance we cite the case of Miss Peggy Bowman, of St. James road, Glasgow, who the other day was haled into the sheriff's court and charged with having failed to fill out (or, as they say over there) the registration form entitling her to the parliamentary vote. Over there it is an obligation placed upon her in the fullest legal sense and punishment awaits those who fail to prepare themselves for the exercise of their "privilege." Even in Great Britain she need not actually vote if she doesn't wish, but the law requires her to place herself in a position to deposit her ballot if tempted to do so.

Why this half-measure we are unable to explain, and it seems that Miss Peggy was also in the dark. She had assumed that if she registered she should be obliged to go to the polls and register her choice. That was brought out during her trial when the young votress testified that she feared that if she registered "she would have to go and record a vote for some idiot she did not want to have anything to do with." That is not an entirely unfamiliar attitude in America, but the ladies are not usually given to such plain talking in public in re the political profession.

## EVENTS OF INTEREST TO SOCIETY

The Brazilian Ambassador, Senor S. Gurgel do Amaral, will entertain at dinner March 6, in honor of Mrs. Herbert Wadsworth, of Afon, N. Y.

The Ambassador of Chile, Senor Don Carlos Davis, will return today from New York, where he passed several days.

The German Ambassador and Frau von Prittwitz and Gaffron will go to New York this evening.

The Secretary of State and Mrs. Kellogg were the guests in whose honor the Assistant Secretary of State and Mrs. Wilbur J. Carr, entertained at a reception yesterday afternoon, when the guests were the Assistant Secretaries of the divisions and bureaus of the department, and their wives. At the table were Mrs. Reuben J. Clark, Mrs. William R. Castle, Jr., Mrs. Francis White and Miss Elizabeth Nelson.

The Secretary and Mrs. Kellogg are the guests in whose honor the Secretary of the Treasury, Mr. Andrew W. Mellon, will entertain at dinner this evening.

Mrs. William Howard Taft, wife of the Chief Justice, was the ranking guest at the luncheon given yesterday at the Willard by Mrs. Guy Despard Goddard, wife of Senator Goddard. ## LAW UNIFORMITY URGED FOR SAFETY

Model Statutes Proposed Are  
Severe on Driving While  
Intoxicated.

SPEED WOULD BE PRUDENT

By A. W. KOEHLER,  
Secretary National Conference on  
Street and Highway Safety.

(The following is the fourth of a series of special articles dealing with a Nation-wide effort to promote traffic safety and reduce the chaos which has been produced by lack of uniform and scientific laws governing the operation of motor vehicles.)

One of the major objectives of its entire campaign, in the estimation of the National Conference on Street and Highway Safety, is affecting uniformity in laws and regulations controlling the actual driving practices of motor vehicle operators.

When motoring was in its infancy and the cars of a pioneer age rarely traveled beyond their home neighborhoods, varying or conflicting rules of the road did not constitute a problem of first importance. As individual motorists steadily pushed back their horizons, however, town and city limits passed under their feet and the crossing of State boundaries gradually became commonplace. Confusion began to appear instantaneously for the tourist became a menace to himself and to the traffic of all places he drove through. What the touring drivers knew was the legal and proper thing to do at home might prove a serious breach of the law a few miles away.

The necessity for noncontradictory and generally improved driving rules became increasingly apparent. General practices brought about some uniformity in State laws governing driving, but the need of a definite framework for a law that could be made acceptable in all States became glaringly apparent. To the task of providing a common ground for all States in this respect the national conference addressed itself.

Uniform Laws Drafted.

The result was the drafting of "A Uniform Act Regulating the Operation of Vehicles on Highways." This is the act on which the model municipal traffic ordinance is based and with which it is in complete harmony. Thus the act provides the basis for uniform State laws and the ordinance for uniform municipal enactments.

One of the first rules of the road laid down in this model statute relates to driving while intoxicated. In practice it has been found that juries are reluctant to convict a first offender when conviction means a jail sentence and too often, consequently, the defendant is acquitted. This act provides the alternative of a heavy fine, but under this provision a first offense is mandatory. Revocation of license is also stipulated.

The act defines reckless driving as "willful or wanton operation of a motor vehicle in a manner that endangers life, limb or property" and provides severe minimum penalties, increasing with subsequent violations. The act sets forth as the basic speed for the proposition that operators of vehicles shall at all times drive in a careful and prudent speed, not greater than is reasonable and proper, having regard for the traffic, surface and width of the highway and of any other conditions then existing. In further emphasis the section declares that no person shall drive any vehicle at such a speed as to endanger life, limb or property.

Speed 15 to 35 Miles.

As a guide to the judgment of both operators and enforcement officers and courts, the section sets forth prima facie limits graduated from 15 to 35 miles an hour, the latter applicable in open territory. Higher speeds are permitted, but the burden is placed upon the driver in such case to show that conditions warranted it.

Section 5 requires any driver approaching an intersection or steam railway grade crossing to bring his vehicle to a complete stop before traversing the crossing if a clearly visible and positive signal is at the time giving warning of the immediate approach of a train or car. The section also authorizes the proper authorities to designate particularly dangerous crossings at which vehicles must come to a complete stop at all times.

Speed limits according to weight and the equipment are left to the discretion of the States, as also is speed limitation on bridges. Drivers of police, fire and hospital vehicles are exempt from speed restrictions without, however, authorizing them to throw aside restraint and endanger others unnecessarily.

Specific rules for driving on the right side of the highway, keeping to the right at crossings, giving oncoming vehicles at least one-half of the traveled portion of the roadway if possible, and for overtaking and passing are laid down in separate sections.

In the absence of markers to the contrary, section 17 requires operators intending to turn to the right at an intersection to approach it in the traffic lane nearest the right-hand side of the highway. Similarly those intending to turn to the left must approach the intersection in the lane nearest the center line of the highway and shall furthermore pass to the right of the center of the intersection.

Wilkins Arrives in Lima  
En Route to New York

Lima, Peru, Feb. 27 (A.P.).—Sir Hubert Wilkins, noted Australian explorer, who is returning from his air expedition to the Antarctic, arrived today aboard the steamship Ebro en route to New York.

He was accompanied by Lieut. Carl Dan Eriksen, Joseph Crossin and Orville Porter, his chief aids. The party landed here for a sightseeing tour.

## SOCIETY EVENTS

(CONTINUED FROM PAGE 7.)

various States on their entrance at the inaugural charity ball at the Washington Auditorium on Monday at 10 p. m. The Governor of Connecticut will be the first to arrive.

Gen. Summerall, who was made general on Saturday, and Maj. Gen. John A. Lejeune, for eight years commandant of the Marine Corps, and who leaves Washington March 5, will receive the same high honors with the flourishes and ruffles due their rank.

Mrs. George Thomas, of East Clifton Terrace, entertained informally at dinner last evening at the Grace Dodge Hotel.

The Smith College Alumnae Club of Washington is having a tea on Friday at 4:30 o'clock at the A. A. N. W.

Mrs. Alexander Witherspoon will be at the tea table. Miss Eleanor Reiss and Miss Elizabeth Bryan will speak. Alumnae students and faculty from out of town are cordially invited.

The Congressional Club will have a tea tomorrow afternoon at 4 o'clock, when Mr. John M. Baer will speak.

Dr. John Herman Randall, Mrs. Robert Lee Moffett, international field secretary of the World Union Foundation; Mrs. Florence Morton, of Worcester, Mass., and Mrs. Arthur Jeffrey Parsons will be guests of the class in Oriental art at George Washington University, 2024 G street, room 22, this afternoon at 4 o'clock. Dr. Randall will speak on "Art as a Unifying Influence." The public is invited.

**Cantabile Chorus to Honor Dr. and Mrs. Henneman.**

The Cantabile Chorus will entertain in honor of Dr. and Mrs. Alexander Henneman at the home of Mrs. Frederick J. Rice this evening. Musical numbers presented by soloists of the club will lend to the entertainment, after which supper will be served. Arrangements are being made by Mrs. Frank Schrider, Mrs. James E. Collier and Mrs. George T. Thomalds.

An inaugural ball will be given Saturday evening at the Jewish Community Center by the Washington Zionist Organization. Dr. Charles Basseches is chairman of the arrangements committee for the ball.

Guests of honor and principal speakers at the third annual dinner given by the Spanish section of the Women's City Club, in the clubhouse this evening at 8:30 o'clock, will be Dr. Cereales Ferras, Ambassador of Cuba; Miss He-

**Ice Forces Stinson To Delay His Start**

**Aviator Unable to Get Plane in Air; Hopes to Hop Off Some Time Today.**

Bay City, Mich., Feb. 27 (A.P.).—A heavily laden plane, with 18 inches of water covering the runway on the ice of Saginaw Bay was too much for Eddie Stinson and Randolph Page, veteran Detroit aviators, and they were forced to postpone again today their effort to start an endurance flight which they hoped would establish a record. Stinson announced another attempt to take off will be made at daybreak tomorrow.

After watching with anxious hearts the sealing of the runway in the ice throughout last night, Stinson and Page made a desperate effort to get away this morning, but with the big plane, the Saily Sovereign, fueled and poised to take off, a sudden change in the wind and drag of the water covering the runway made it impossible. Determined, they moved their plane some three miles farther out to a new runway. Stinson drove the big plane at terrific speed for 1½ miles, but succeeded only in getting the tail off the ice.

**5-for-1 Split Agreed In Radio-Victor Merger**

New York, Feb. 27 (U.P.).—Stockholders of the Radio Corporation of America today approved merger of that concern with the Victor Talking Machine Co. and also approved a five-for-one basis split up in common stock. Under the plan an agreement made January 4, 1929, each holder of common stock of the Victor Company will be entitled to receive one share of "B" preferred stock and one share of common of the Radio Corporation of America and \$5 in cash. The plan requires a deposit of seven-eighths of the outstanding common stock of Victor before March 4 in order for it to be binding on the Radio Corporation.

**Unemployed Marchers Are Ignored by Baldwin**

London, Feb. 27 (A.P.).—Premier Baldwin has decided not to receive the deputation of unemployed marchers who have reached London after a long hike from various sections of Britain. Announcement of this was made in the House of Commons today by Winston Churchill, chancellor of the exchequer, replying in behalf of the premier to a question by a Laborite. The unemployed deputation held a demonstration in Trafalgar Square on Sunday and since have been seeking an interview with the premier and other cabinet members.

**Sisters Face Alien Act Charge After 48 Years**

Alton, Hampshire, England, Feb. 27 (A.P.).—After living in England for 48 years, two American women, Miss Kate Colt and Miss Eliza Colt, residing in the village of Froyle, were summoned before a court here on a charge of failing to register as aliens. When they showed they were never aware of the necessity for so doing, the case against them was dismissed, but they had to pay the costs of the action.

## OPERA BY MASCAGNI GIVEN AT CLUB HERE

"Cavalleria Rusticana" Sung  
by Washington Cast on  
Improvised Stage.

SOLO NUMBERS ENJOYED

Sprightly choruses, fresh young voices and a determination to rise above the lack of formal stage settings featured the performance of the Washingtonians last night at the Opera Club headquarters, 1828 K street northwest in Mascagni's "Cavalleria Rusticana." The opera was sung on an improvised platform in the dining room of the Opera club headquarters and while the acoustics and lighting were not of a particularly high order, yet the scenery and costuming and the voices were attractive.

The opera was directed by Rollin Bond, director of the Washingtonians. There was no orchestra, but a pianist did valiant service and the enthusiasm and spirit of the singers overcame many technical difficulties which arose through the lack of orchestral accompaniment.

Augustino Arancio as Turiddu possesses a voice with beauty of tone and timbre. A slight nervousness wore off after a while and he was heard to advantage in several of his solo numbers. John McDonald as Alfio also won laurels for himself, while Ruth McCormick, as Santuzza, Genevieve Farnell, as Lola, and Belle Wilder, as Turiddu's mother, showed a good understanding of operatic demands. The chorus of peasants sang with vim and while not always with perfect ensemble tone gave a pleasant production of their portion of the opera. The chorus, generally speaking, needs training in stage presence.

A violin solo by Rose Novak, "A Bit of Dresden China," by Dorothy Davenport, and Terry Bellanca in "Vesta la sibba," from Pagliacci, were pleasing additions to the operatic program.

**Artillery Academy Closed by Alfonso**

**Spanish King Traces Late Trouble to That Source; Acts to Save Morale.**

Madrid, Feb. 27 (A.P.).—King Alfonso today signed a decree for permanent dissolution of the Artillery Academy. Gen. Primo de Rivera, premier, emerged from the palace after the signing and told newspaper correspondents: "The rebellious spirit existing in the academy seemed likely to taint the morale of the whole army." Students of the academy will be definitely excluded from the army registers. Indemnities will be given to their families to reimburse them for expenses, such as tuition, incurred on behalf of the cadets.

The academy was the training school for the artillery corps, which was itself recently disbanded as a separate unit of the military establishment. This action was a sequel to the recent revolt at Ciudad Real and evidence of a plot to overthrow the dictatorship which centered in the corps.

**French Fliers to Hanoi Take Train After Crash**

Rangoon, Burma, Feb. 27 (A.P.).—Joseph Lebriz, French aviator, and his two companions on the flight from Marseilles, France, to Hanoi, French Indo-China, arrived here today by railroad. Their plane crashed yesterday near Pegu, about 122 miles from this city.

Lebriz and Sergt. Maj. Antoine Pallard seemed none the worse physically for their experience, but the wireless operator, Dousse, was suffering from a badly wrenched leg.

**Girl, in Coma for 440 Hours, Now Improving**

Lynchburg, Va., Feb. 27 (A.P.).—Marjorie Dowdy, 10-year-old school girl, of this city, entered upon her 440th hour in coma here today. Physicians say her temperature last night dropped from 104 degrees to 101 this morning, indicating a slight change for the better.

Marjorie has been unconscious since February 8, as the result of a head injury from an automobile accident here.

**Nurse, Friends Say, Insane Over Love**

**Hospital "Angel of Mercy" to Tell What Made Her Kill Man She Adored.**

Denver, Colo., Feb. 27 (U.P.).—Relatives, friends and professional associates came to the defense of Parice King today, testifying she was insane on the subject of her love for Bob Evans.

By nearly a score of lay witnesses, her defenders bolstered the contention that the murder of Evans by Miss King was the result of a "love mania." They paved the way for introduction of the slayers own story and the testimony of alienists about the strange mental processes that led her to kill the man she loved.

The testimony today followed the same general trend, that Parice was a happy, beautiful young woman, an "angel of mercy" in the hospital where she was a nurse, whose affair of the heart ran its course and left her morose and emaciated, resulting in tragedy.

## ***THE SATURDAY EVENING POST***

This new high point in Saturday Evening Post circulation maintains and increases its leadership in the magazine field.

This circulation expresses the preference of American periodical readers. It is not artificially stimulated. There are no subscriptions in arrears, no installment-payment subscriptions, no premium, cut-rate, clubbing, guessing or prize-contest offers for readers.

The growth of THE SATURDAY EVENING POST has been slow, steady and sure, because its policies are rooted in the best traditions of the past and are projected forward in an effort to help realize an ever stronger and sounder America. These policies are:

Higher standards in business and just treatment of business by government; fair play with other nations; self-protective immigration policies; expert conservation of national resources; extension of national parks and the protection of wild game; the wider spread of effective agencies for higher education and better health; clear and sensible discussions of the major questions of national and international importance as they develop from month to month, and the visualization of these questions, not separately, but in their relation to one another and as parts of a whole.

THE SATURDAY EVENING POST keeps its feet on the ground and its eyes forward without Editorial priggishness, economic pinkness or apologetic Americanism.

## SENATE MART VOTE STIRS FARMERS' IRE

United Market Association  
Representative Puts Ban  
on Southwest Site.

### WILL GO TO PRESIDENT

Their utter dissatisfaction with the action was expressed by spokesmen who said they represented 400 farmers when they learned the Senate had passed the Southwest market bill.

The farmers in question moved their business recently to Fifth and K streets northwest and are banded together in the United Farmers Market Association.

"Congress may build the finest market in the Southwest, yet we will always refuse to move down there and start," Henry A. Friday of Latham, Md., declared. "The public will not go there; neither will we."

J. Frank Watson, of McLean, Va., secretary, said, "We do not object to a market in the Southwest, but we do object to the waste of \$500,000 of the public's money on an institution that will never be used by us."

J. B. Smith a District of Columbia farmer, declared, "We will take our fight direct to the White House. President Coolidge, we believe, will represent the people and the farmers when the time comes for him to pass on the matter."

### 20 Dead, Many Burned

#### In Collapse of Cafe

Athens, Greece, Feb. 27 (A.P.).—Twenty persons were believed to have been killed today in the collapse of an upper floor of the Panellion Cafe on University street. Many were injured and a number were buried in the ruins late this afternoon.

Every effort to extricate those caught in the debris was made by the authorities. It was believed that the collapse was caused by excavation operations near the building's foundations.

### Capt. Eaker Forced Back To Seattle by Weather

Seattle, Wash., Feb. 27 (A.P.).—Unfavorable weather conditions forced Capt. Ira C. Eaker back to Seattle today after he had taken off southward in a new type of Army pursuit plane in which he will attempt a dawn-to-dusk flight from Brownsville, Tex., to Colon, Panama, March 10.

Eaker said he would hop on again as soon as possible.

### Mack Gets 20-25 Years For Killing Architect

Charlotte, N. C., Feb. 27 (A.P.).—Benny Mack, pugilist, was sentenced today to 20 to 25 years in State's prison after pleading guilty in Mecklenburg Superior Court today to second-degree murder.

Mack shot and killed W. R. Moore, landscape architect, February 3.

### SOUTHWEST WINS PRODUCE MARKET

Continued From Page 1.

Total—24.

### Senators in Clash

During the afternoon debate Senator Glass presented facts and figures in support of the House bill in his speech, which was interrupted at frequent intervals by Senator Tydings. These interruptions, with few exceptions, brought fireworks in the sizzling replies which the senator from Virginia shot back at the senator from Maryland.

Asked for definite data to support one of his assertions, Tydings began as follows: "I have not got the figures, but—"

"May I say to the senator at the outset," snapped back Glass, "that it would be very, very surprising if you had."

Then, as Glass quoted from records and compilations, Tydings rose with the usual "Will the senator yield?"

"If I have to yield every time I state a fact I'll be yielding all the time," replied Glass.

Later, when Glass delved into a mass of statistics to find a desired reference, Tydings said:

"While the senator is looking that matter up I hope he will yield to me to put in the record—"

"No, I won't," snapped Glass.

"I won't hang the senator for his unfeeling courtesy," interposed Tydings.

Petitions Are Discounted.

"I thank the senator for thanking me," shot back Glass.

Glass then yielded to the senator from Maryland.

Sharply criticizing some of the petitions which Tydings had offered in opposition to the Southwest site, Glass charged that they were juggled, not representative of bona fide sentiment and unimportant, anyway.

"I could get a petition before sundown to hang the senator from Maryland," Glass said, "and I have no doubt he could get one to hang me."

"I wouldn't hang the senator from Virginia," replied Tydings. "I'm too fond of him."

After Glass concluded his speech and Tydings had made his first reply, a quorum call promised a vote, but Senator Blaine stepped into the role of obstructionist and proceeded to consume time talking about traffic regulations with reference to the Southwest site.

### Bank Board Denies Posing as 'Arbiter'

Answers Heflin Resolution;  
Says Feb. 6 Statement  
Was Credit Aid.

### ACTION HELD WARRANTED

The Federal Reserve Board, in response to the Heflin resolution requesting it to give to the Senate any information and suggestions that it feels would be helpful in securing legislation necessary to correct the evil of withdrawing money from the channels of business for speculative purposes, denies that it set itself as arbiter of security, speculation or values.

It asserted that in its efforts to bring about an orderly readjustment of the credit situation it issued the statement of February 6, giving its attitude and viewpoint with respect to the growing volume of credit in speculative security, and results since have justified its action.

The report of the board to the Senate was received without comment, and referred to the committee on banking and currency.

Immediately after the Reserve Board issued its warning against the extension of speculative credit, the stock market went through an extraordinary period of fluctuations. The changes in market values aroused the interest of leaders of Congress, and Senator Heflin (Democrat), Alabama, sought information from the board. The Senate, without serious opposition, adopted the resolution calling for information.

Board Reviews Facts.

The Reserve Board, through its secretary, Walter L. Eddy, reviewed the facts from the day of the statement referred to by the Senate resolution. In its reply it quoted the original statement. After quoting the statement of December 6, the board calls attention to a letter under the date of February 2, which it addressed to the Federal Reserve banks, which contains a fuller explanation of the position.

In part the letter of February 2, reads:

"The firming tendencies of the money market which have been in evidence since the beginning of the year—contrary to the usual trend at this seasonal Reserve banks to give constant and sound—make it incumbent upon the Federal Reserve Board to call attention to the situation in order that no influence adverse to the trade and industry of the country shall be exercised by the trend of money conditions, beyond what may develop as inevitable."

"The extraordinary absorption of funds in speculative security loans which has characterized the credit movement during the past year or more, in the judgment of the Federal Reserve Board, deserves particular attention lest it become a delicate factor working toward a still further firming of the market."

Canada Seeks Trade in Panama.

Ottawa, Feb. 27 (A.P.).—A Canadian trade commissioner's office has been established at Panama, the government announced today, in furtherance of the policy of the department of trade and commerce to extend the commercial intelligence service throughout the world.

### Gangs' Gun War Rakes City Street

Two Auto Loads Battle at  
30 Paces; Two Men Are  
Severely Wounded.

Buffalo, N. Y., Feb. 27 (U.P.).—A pitched gun battle at 30 paces between two automobile loads of gangsters was interrupted by the arrival of a police riot squad today, which opened fire on both vehicles, capturing one that contained two severely wounded gangsters. Seven other men were arrested as a result of the clash, which, police said, climaxed a hijackers' feud.

The police car responded to a telephone alarm from an East Side householder, who said the street in front of his house was being raked by gunmen.

In the captured car were Edward Tuckoika, 20, critically wounded, and Felix Slovick, 22, weak from loss of blood from a wound in his leg. Eddie Bates, alias Menny, was arrested as the driver, refused to talk and was put in a cell. Six men later were arrested in a car in Cheetowaga and held for questioning.

of money rates to the prejudice of the country's commercial interests.

"The resources of the Federal Reserve system are ample for meeting the growth of the country's commercial needs for credit, provided they are properly administered and protected against seepage into uses not contemplated by the Federal Reserve act."

Goes Outside Province.

"The Federal Reserve act does not, in the opinion of the Federal Reserve Board, contemplate the use of the resources of the Federal Reserve Banks for the creation or extension of speculative credit. A member bank is not within its reasonable claims for redemption facilities at its Federal Reserve Bank when it borrows either for the purpose of making speculative loans or for the purpose of maintaining speculative loans."

"The board has no disposition to assume authority to interfere with the loan practices of member banks so long as they do not involve the Federal Reserve Banks. It has, however, a grave responsibility whenever there is evidence that member banks are maintaining speculative security loans with the aid of Federal Reserve credit."

The board called the attention of the Senate to the fact that the purpose and language of its statement does not agree with those in the preamble of the Senate resolution.

The board's statement concerned itself with credit conditions. It said, "It disclaimed both the authority and the desire to set itself up as an arbiter of security speculation or values." That still is the board's position.

### COMMITTEE HALTS SALT CREEK INQUIRY

Senate Group Turns Oil Lease  
Case Over to the Justice  
Department.

### PATH OPEN TO CONTINUE

(Associated Press.)

The Senate lands committee yesterday turned over the investigation into the leases of the Salt Creek, Wyo., oil fields to the Department of Justice with reservation to reopen its own inquiry if the situation demands.

This decision ended a four days' contest within the committee over the resolution of Chairman Nye, seeking to continue the committee inquiry. The result was regarded as a compromise between those who wanted to end the hearing and those wanting further investigation by the committee.

Thomas Sterling, counsel for the committee, recently reported after six months of study that in his opinion the leases on the Salt Creek field were valid. Senator Nye was dissatisfied and asked further investigation.

After days of wrangling, Senator Walsh (Democrat), Montana, offered the resolution to transmit the Sterling report and other evidence by the committee to the Department of Justice for its study. Chairman Nye alone voted against this, hoping to get a separate committee inquiry.

The committee then unanimously adopted a resolution to continue the authority of the committee into the next session, but providing that further investigation should be undertaken only upon a majority vote.

### Officer's Killer, Slain, Is Identified as Madman

Atlanta, Feb. 27 (A.P.).—The body of the man who shot and killed County Policeman B. L. Hughes here early yesterday and in turn was slain by Hughes' fellow officer, was identified today as that of Raymond Hammond, an inmate for eleven years of the State Insane Asylum at Milledgeville, who escaped about six months ago.

The identification was made by two sons, Ermon and Toy Hammond, of Simsville, Ga.

### Pickpockets Force Man To Swallow Jack-Knife

Toronto, Feb. 27 (A.P.).—Angered by the small amount of money he had, two holdup men today forced Angelo Aygusta to swallow a jack knife more than 4 inches long.

Aygusta said one of his assailants attempted to make him swallow the knife with the blade open, but the other intervened and the blade was closed. Doctors said there was hope of saving Aygusta's life.

## BANK BOARD DENIES POSING AS 'ARBITER'

Answers Heflin Resolution;  
Says Feb. 6 Statement  
Was Credit Aid.

### ACTION HELD WARRANTED

The Federal Reserve Board, in response to the Heflin resolution requesting it to give to the Senate any information and suggestions that it feels would be helpful in securing legislation necessary to correct the evil of withdrawing money from the channels of business for speculative purposes, denies that it set itself as arbiter of security, speculation or values.

Aygusta said one of his assailants attempted to make him swallow the knife with the blade open, but the other intervened and the blade was closed. Doctors said there was hope of saving Aygusta's life.

### CRISCO was used in the Cooking School recently conducted by this paper

Mrs. Frances Northcross, in The Post Cooking School, made a point of modern methods in cooking. Naturally, then, she used Crisco, the modern shortening. Not only is Crisco easy to use; in addition, it helps you secure better, surer results.

These recipes have been tested and approved by cooking authorities. You will get best results by using level measurements and the ingredients specified.

CRISCO is the only sanitary pad that deodorizes by patented process. (Patent No. 1,670,967.)

You can so easily remove or adjust

Use Super-size Kotex Formerly 90c—now 65c

Super-size Kotex differs from Regular Kotex only in giving the extra protection of additional layers of Cellucotton absorbent wadding. The advantages in using it in connection with the Regular are thus obvious. Disposable the same way. Doctors and nurses consider it indispensable where extra protection is needed. At the new low price, you can easily afford to buy one box of Super-size to every three of Regular. Its extra layers of filler mean much in added comfort and security.

WON'T you try The Improved Kotex—buy a box this very day. It is 45c for a box of twelve, at any drug, dry goods or department store.

That "conspicuous" feeling The other fear—the feeling of being conspicuous—is also eliminated. Corners of the Kotex pad are scientifically rounded and tapered so as to leave no evidence of sanitary protection when worn.

Yet every advantage remains You can so easily remove or adjust

Sensitive women suffer acute embarrassment when they realize they may be offensive to others. This new way of deodorizing sanitary pads\* removes all such fears.

WHEREVER women meet the world, they are in danger of offending others at certain times. Learning this, they become unhappy self-conscious. Carefree pleasures are impossible. Now, a discovery of Kotex Laboratories makes worries of this sort unnecessary. Each sanitary pad is scientifically treated, by patented process\* to end all odor. The last problem in connection with sanitary pads is solved.

That "conspicuous" feeling The other fear—the feeling of being conspicuous—is also eliminated. Corners of the Kotex pad are scientifically rounded and tapered so as to leave no evidence of sanitary protection when worn.

Yet every advantage remains You can so easily remove or adjust

Sensitive women suffer acute embarrassment when they realize they may be offensive to others. This new way of deodorizing sanitary pads\* removes all such fears.

WHEREVER women meet the world, they are in danger of offending others at certain times. Learning this, they become unhappy self-conscious. Carefree pleasures are impossible. Now, a discovery of Kotex Laboratories makes worries of this sort unnecessary. Each sanitary pad is scientifically treated, by patented process\* to end all odor. The last problem in connection

## FORT ASSERTS BILL HURTS DRY CAUSE

Hoover Intimate Opposes  
More Severe Penalties  
for Violators.

### HOUSE MAY ACT TODAY

(Associated Press.)  
A clash of views developed in the House yesterday immediately upon the taking up of the Jones bill to provide more severe penalties for prohibition law violations. After more than an hour's discussion consideration was carried over until today.

Representative Fort (Republican), New Jersey, a dry, and looked upon by many in the House as one of the spokesmen for the incoming administration, joined with a group of wets in opposing the measure. He declared that if the prohibition law was made more stringent it would weaken enforcement in the sections where wet sentiment prevails by making it more difficult to obtain indictments and convictions.

"And," he added, "the wet areas in the vicinity of our large cities are the places where we need enforcement most."

Among those who defended the bill were Representatives Williams of Illinois and Cooper of Ohio, both Republicans. Williams declared that prohibition, in spite of what he said were the evils that had crept up around enforcement in many places, was a success and that the American people would not turn their back upon the path they had chosen.

The Jones bill, Williams added, was designed to increase the penalties for the aristocracy of the liquor traffic.

Cooper said that those who were opposed to the legislation did not speak for the millions of law-abiding people who wanted to see prohibition enforced, and pointed to the defeat of Gov. Smith in the recent election as proof of this desire.

Among those opposing the measure was Representative Mary T. Norton, a New Jersey Democrat, who declared that passage of the legislation would force the Government to go into the building business to erect jails enough to hold the violators.

"And a large part of the membership of this House, and of our State Legislatures, might find themselves in an embarrassing situation if the law was rigidly enforced," she added.

Mrs. Roosevelt Visitor in Italy.  
Genoa, Italy, Feb. 27 (A.P.).—Mrs. Theodore Roosevelt, widow of the former American President, arrived at Porto Marfio today for a visit with her sister Emily Carow, who has a villa nearby.

## WILHELM, SON AND GRANDSON

A hitherto unpublished portrait study of former Kaiser Wilhelm of Germany and his son and grandson—Crown Prince Wilhelm and Prince Wilhelm.

### \$500 Fine Followed By \$30 Traffic Fine

Herman Sanford, 26 years old, who paid a \$500 fine for a conviction of transporting and possessing liquor twelve days ago, was found guilty of reckless driving and failing to give a signal, by Judge Ralph Given in Police Court yesterday and fined \$30.

Detective William R. Laffin, of the Eighth Precinct, testified that when he jumped on the running board of a car driven by Sanford at Sixteenth and U streets northwest to arrest him on the liquor charges, the driver zig-zagged up the street in an attempt to throw Laffin off the car. The driver was forced to stop when a revolver was pressed against his head by Laffin, it was stated.

## CONTINUED INDIAN INQUIRY ORDERED

Hayden Charges Committee's  
Employee Receiving Travel  
Pay Falsely.

### FRAZIER TO INVESTIGATE

(Associated Press.)  
A continuation of the long inquiry of its Indian committee into Indian affairs was ordered yesterday by the Senate, and at the same time charges were made against an employee of the committee.

After a resolution for the further investigation had been adopted by the Senate, Senator Hayden (Democrat), Arizona, declared that an employee of the Indian committee had been collecting travel pay from the Government without leaving his home. He said the committee had been conducting its investigation as a "kangaroo court."

Senator Wheeler (Democrat), Montana, a member of the committee, replied that Hayden's charges were aimed at discrediting the inquiry. He asked Hayden why he had not made his complaint about the employee before the committee itself.

Earlier in the day the committee had proceeded with its investigation by receiving the reports on the collection made among the Indians of Oklahoma by the American Baptist Home Missionary Society.

Chairman Frazier of the committee obtained the extension of the committee's authority to proceed during the next session with the investigation after several vain attempts during the week and counterattacks of the filibuster.

Commenting later on Senator Hayden's charge, Senator Frazier said he would inquire into it and have the money repaid by the employee if he had collected travel pay without traveling. He said further plans for the inquiry had not been determined, but that it was likely the reservations in South Dakota, among others, would be examined.

## "LA BELLE" HAS MUD IN EYE, DOCTOR SAYS

X-Ray Films Are Produced in  
Court by Defense to  
Show Retouching.

### SUIT INVOLVES \$500,000

New York, Feb. 27 (A.P.).—The "Blacksmith's Daughter," better known as "La Belle Ferroniere," was examined through an X-ray machine and the films were produced in court today by a physician who found that she had "mud" in her eye.

S. Lawrence Miller, counsel for Mrs. Andree Hahn, who owns "La Belle" and is suing Sir Joseph Duveen for \$500,000 for slander of title of the portrait, introduced the X-ray films and called Dr. William H. Diefenbach to the stand.

Dr. Diefenbach pointed out in the films "light spots," which, he said, indicated differences in the pigments. When asked by Mr. Miller if he detected a difference in the left and right eyes of the lady the doctor testified that he saw "an abnormal mass of pigment in the left eye as though a speck of mud had been thrown against the window." This difference in density in the pigments, he indicated, might mean retouching, a point which had been discussed at great length in the trial.

The medical expert's answers under cross-examination were short and crisp in marked contrast to the long discussion given by art experts. When asked by Mr. Whitehead, attorney for the defense, if this difference in density was all that could be told by the X-ray, Dr. Diefenbach said: "Precisely."

In the afternoon session depositions of Sir Martin Conway and Morris Brookwell, curator of the Edinburgh Gallery, were introduced by the defense. They confirmed the opinions of many other experts that the Hahn painting is a copy of the picture in the Louvre. Brookwell characterized the picture as having "puffy features, wiglike hair" and lacking the life that stamped the work of Da Vinci. Sir Joseph will offer two or three other experts by deposition before he closes his case.

### Moslems Destroy Part Of Famous Wailing Wall

Jerusalem, Feb. 27 (Jewish Telegraph Agency).—A part of this western wall of the temple, commonly known as the wailing wall, over which Moslems and Jews in Palestine have been in conflict, was destroyed by Moslems yesterday.

The Jewish community of Jerusalem lodged a protest with the authorities.

Former Kaiser's Grandson Graduated.

Berlin, Feb. 27 (A.P.).—Prince Louis Ferdinand, second son of former Crown Prince Frederick Wilhelm, was graduated from the University of Berlin today with the degree of Doctor of Political Science.

The Cleveland Public Library.  
Walker & Weeks, architects.

"We should say that the very reasons that lead to the use of Copper and Brass in public buildings should make them especially desirable in small homes, where rust is a huge source of loss."

*Walker & Weeks*

THE greatest building authorities in the country, the architects of America's magnificent office and public buildings, are almost unanimously in favor of the extensive use of Copper, Brass and Bronze materials in buildings of all kinds—modest homes as well as million-dollar structures.

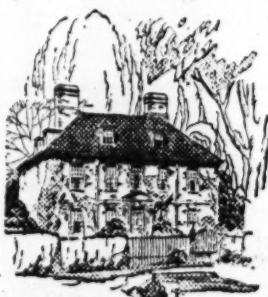

Long experience has shown that these rust-proof metals are always an economy in the end. As Walker & Weeks, the prominent Cleveland architects, say:

"These metals may cost somewhat more than rustable materials, but the permanent service and protection against rust that they give are worth many times their purchase price."

When you build, buy or remodel, see that you are permanently protected from the expense and annoyance of rust. Don't be satisfied with metals that merely resist rust. Specify Copper for leaders, gutters and downspouts, Brass pipe for plumbing and solid Brass or Bronze for hardware and lighting fixtures. These metals cannot rust.

Write our Building Service Department for any additional information.

Considering their life-long service and their absolute protection against rust, Copper, Brass and Bronze are not expensive even in the construction of small homes.

## "Aha!" says Dad

Not always was Dad so serene as we see him here. Not so, indeed. You should have seen him before he learned the simple trick of taking care of the furnace.

The Anthracite coal dealer showed Dad the trick.

"Look here," says the dealer, "you're all right and your furnace is all right. You just don't know how to work together—I'll show you!"

And he did. So now the furnace gets along nicely on a couple of shovels less coal every day, a lot less attention and it sends up more heat than it ever did. Hence Dad's present affable state of mind.

Will your coal dealer do as much for you? You bet he will. And remember that Anthracite Coal is the long-burning coal. It is economical, clean and safe.

## TOWNS IN MIDWEST MENACED BY FLOODS

Sections Isolated and Bridges Torn Away as Lowland Streams Swell.

### LIVE STOCK IS IMPERILED

Chicago, Feb. 27 (A.P.).—Premature spring thaws, aided by heavy rains, melted away a broad expanse of snow and ice in the Middle West, isolated towns and villages, tore away bridges and sent menacing waters from streams over lowlands of several States today.

No loss of life was reported in the flood area, but the unseasonable warm temperatures brought danger in the Midwest area, which has been covered with deep snows and ice in one of the worst winters in recent years.

In the Southland, in western Mississippi, Arkansas and Texas, several communities were recovering from the freshish tornadoes which spread a trail of death and destruction in its path. The death toll in the three States was increased to 40 today when two of those injured at Duncan, Miss., died in a Clarkdale hospital.

### Town Practically Wiped Out.

At Duncan, hardest hit by the tornado, 23 lives were claimed. The town was practically wiped away. A corps of nurses and relief workers were sent into the stricken area by the Red Cross to prevent disease and administer to the injured and homeless.

Ice jams, released by the thaws, swept three bridges away in the Sangamon River, near Springfield, Ill. Two bridges at Chandierville were destroyed and another was weakened by the ice movement. An unsuccessful attempt was made to save a Jacksonville & Havana Railroad bridge over the Sangamon River.

### Live Stock in Danger.

Flood waters, spreading over the lowlands in central Illinois, inundated farms and imperiled live stock. Telephone and telegraph lines were torn down in some districts and highway traffic was at a standstill. Streams throughout Indiana were at or near flood stage today and hundreds of acres of farm lands were under water in the southern section of the State.

Many families in the Pike County coal fields suffered from lack of fuel, food and clothing. A section of the Big Four Railroad tracks was washed away between Connorsville and Brooksville and some residents were forced to flee to high ground.

Swollen streams in Ohio, which had marooned several hundred families at Springfield, Hamilton and Newark, were believed to have reached their flood heights today. A 2-inch rainfall had sent several Ohio streams out of their banks. The marooned families were rescued by police and volunteer workers in rowboats.

Flood predictions were made for parts of Missouri, Arkansas, Tennessee and Mississippi. Streams in Mississippi, however, were reported today at a standstill, but further rains would cause a serious situation in view of the wreckage left by the recent tornado.

### Streams in East Up.

New York, Feb. 27 (U.P.).—In the eastern part of the country many streams were reported rising today as result of the warmer weather, following upon the record snowfall of last week. The Schuylkill and Delaware Rivers in Pennsylvania rapidly are approaching flood stage. The former is 10 feet above normal. One of the tributaries, Berklomen Creek, rose 18 feet last night.

In upper New York State the Hudson River is reported rising rapidly, due to the melting snow and ice.

A heavy rain in New York City yesterday caused some damage and slackened traffic.

### Smallpox on Steamer;

131 Vaccinated and Held

New York, Feb. 27 (A.P.).—One hundred and thirty-one third-class passengers on the Cunard liner Andania were vaccinated and taken from the quarantine station to Hoffman's Island today by order of Federal public health doctors when it was learned that a smallpox patient had been removed from the ship at Halifax.

"They will be released at the end of the smallpox incubation period if none develops the disease. The first cabin and tourist passengers were allowed to land at the vessel's pier."

## Marriage of Crown Prince To Be Broadcast March 21

Olav of Norway Will Wed Swedish Princess in Oslo Church.

Stockholm, Feb. 27 (A.P.).—Official announcement was made today that the wedding of Crown Prince Olav of Norway to the Swedish Princess Martha would take place in Oslo on March 21, and would be broadcast by radio over Sweden and Norway. The hour for the ceremony will be 1 o'clock in the afternoon.

Bishop Johann Lunde, of Oslo, will unite the royal couple in Vor Frelser Kirke, largest church in the Norwegian capital. It has a seating capacity of more than 2,000.

Members of the Swedish, Danish and Belgian royal families will attend, and King George of England will be represented by the Duke and Duchess of York. It is also possible that the Italian Crown Prince Umberto, the Dutch Prince-Consort Hendrik, Prince Nicholas of Roumania, and Prince George of Greece will be present.

Princess Martha probably will travel by rail from Stockholm to Oslo, on which case Crown Prince Olav will meet

PRINCESS MARTHA.

his fiancée at the first station on the Norwegian side of the border. In honor of the young betrothed couple, a gala performance is planned at the National Theater in Oslo, on March 20 and a ball will possibly also be given at the royal palace.

## Mother Slashes Girl, 7, to Death

Calls Her Daughter From Schoolroom to Kill Her With Meat Cleaver.

Sterling, Ill., Feb. 27 (U.P.).—Mrs. Francis Craig led her 7-year-old daughter from a schoolroom into the basement of the building, where she slashed the child to death with a meat cleaver today.

The girl's head was virtually severed from her body. Mrs. Craig, authorities said, was on parole from an insane asylum at East Moline, Ill., where she will be returned for confinement. The mother had been obsessed with the belief that her daughter was to be taken from her and confined in an institution.

The child's body was not discovered until the classes were dismissed for recess. The mother had concealed the cleaver under her dress when she went to the school and asked the teacher to permit her to take the child to a dentist. After killing her daughter, Mrs. Craig apparently made an effort to end her own life, but inflicted only slight wounds on herself.

Mr. Fix is a handy man to do the little odd jobs you've been putting off doing from day to day. You'll find his address and telephone number among today's advertisements in the "Personals" classification of The Post.

## Secondary Schools Elect Indiana Man

Milo H. Stuart Chosen Head of Group at Convention of Educators.

Cleveland, Ohio, Feb. 27 (A.P.).—Milo H. Stuart, principal of Arsenal Technical High School, Indianapolis, Ind., was elected president of the department of secondary school superintendents of the National Education Association in convention here today.

Other officers named were M. Shanning Wagner, principal of the Wilmington, Del., high school, first vice president; W. F. Warren, principal of the Durham, N. C., high school, second vice president; Arthur M. Seybold, Cleveland, and John W. Harbeson, of Pasadena Junior College, Pasadena, Calif., members of the executive committee, and H. V. Church, principal of J. Sterling Morton High School at Cicero, Ill., secretary.

The department of national research in science teaching elected W. L. Eickenberry, professor of science at the State Teachers' College at East Stroudsburg, Pa., president, and S. A. Powers, of Columbia University, New York, secretary.

## Stewart Accused Of Proxy Coercion

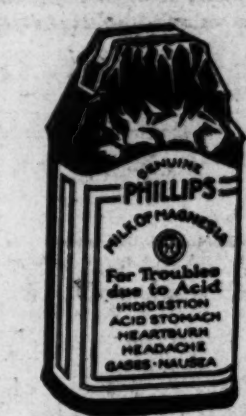

Rockefeller Forces Declare Standard Oil Workers Afraid of Jobs.

New York, Feb. 27 (A.P.).—The proxy committee representing John D. Rockefeller, Jr., in his effort to oust Col. Robert W. Stewart as chairman of the Standard Oil Co. of Indiana, issued a statement tonight claiming they now held 87 per cent of the outstanding stock, representing more than 16,000 of the 58,000 stockholders.

"Of the 58,000 stockholders," the statement said, "we understand that about 18,000 are employees of the company. Many of these employ stockholders have written us that they would like to send us their proxies, but were afraid if they did so they would lose their jobs. The letters indicate that pressure of all sorts has been brought to bear upon the employ stockholders to get their proxies for Col. Stewart."

"We feel very strongly that every employ stockholder should enjoy the right that every other stockholder enjoys, to vote as he pleases. Otherwise, the support of employ stockholders loses its significance."

The statement said that the proxies the committee held, "many of which are for only a few shares of stock each, come from all parts of the country."

# Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

Plans for 50 years in correcting excess acids. 25c and 50c a bottle—any drug store.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1876.

## One Woman Tells Another

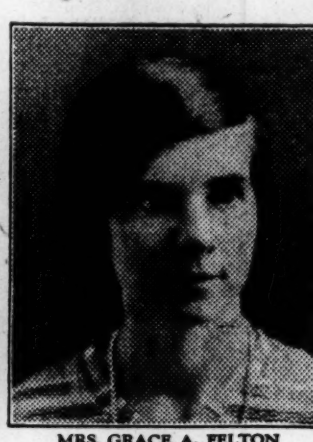

FAME of Lydia E. Pinkham's Vegetable Compound spreads from coast to coast as grateful women recommend it to their friends and neighbors.

MRS. G. L. HAWKS  
230 Terrace Avenue, Petersburg, Virginia

MRS. GLENN LINN  
523 W. Waford St., Perry, Iowa

MRS. GRACE A. FELTON  
102 W. Miner Avenue, Ladysmith, Wisconsin

"I was just run-down, no good for anything, could eat very little, was restless all the time, and had nervous crying spells. I did not sleep any at night and just dreamed for night to come. My sister-in-law recommended the Vegetable Compound to me one day and my husband brought home a bottle. I began getting better when I was taking the second bottle and now I have a good appetite, take care of my people when they are sick and do my own work too."

—Mrs. G. L. Hawks.

"When I was a girl of 13 I was pale and run-down, my back ached and I had no life in me. My mother saw Lydia E. Pinkham's Vegetable Compound advertised and got it for me and after taking six bottles I was like a different person. It made me strong and well and did wonders for me. The best I can say is not enough. I took three bottles more about a year ago and it helped me again. I am taking it now in the tablet form and it is a wonderful help. I will answer letters from women about it."

—Mrs. Glenn Linn.

The flu left me in a run-down condition. Friends recommended Lydia E. Pinkham's Vegetable Compound and it has given me more vigor and has helped me to be more active. I do clerical work and cleaning and pressing and I am able to work every day and to work some at home too. I used to feel so weak and tired I had to lie down often. Now I have a good appetite, my nerves are better and I feel well and strong. I recommend the Compound whenever I can, for it gives results."

—Mrs. Grace A. Felton.

# The Children

By Edith Wharton

A sparkling serial story by one of America's foremost novelists at the gleaming heights of her power.

## SYNOPSIS OF PRECEDING CHAPTERS.

Martin Boyne, a civil engineer, who has been kept busy on projects in all parts of the world, is taking an ocean trip. He is to be accompanied by his wife, Mrs. Boyne, and their two children, a boy and a girl. The trip is to be a family affair, and the children are to be with them. The trip is to be a family affair, and the children are to be with them. The trip is to be a family affair, and the children are to be with them.

## CHAPTER XI (Continued).

"Pity Buondimonte's not here," wheezed under the hand of his wife, Mrs. Boyne, and their two children, a boy and a girl. The trip is to be a family affair, and the children are to be with them. The trip is to be a family affair, and the children are to be with them. The trip is to be a family affair, and the children are to be with them.

"I don't think you ought, any of you, to look at the matter from a legal standpoint," Mrs. Boyne interrupted. "My friends here are awfully fond of the children, and we all know they want what's best for them. The only question is how that best is to be arrived at. It seems to me perfectly simple and obvious," said the Duke, with his dry smile.

"No. Exactly the reverse. Division is what I'm here to suggest—no, not right, but plain," Boyne turned to Mrs. Boyne. "For God's sake, old man, let the lot of them stay together. Why, they're the only thing that would have been, as long as they stayed with me," Wheeler grumbled helplessly.

His wife reared her golden crest with a toss of defiance. "You don't suppose for a minute I'm going to abandon my children to the care of that scoundrel Wheeler's likely to provide for them? Gerald and I are prepared—"

"So are Cliffe and I," murmured Mrs. Lullimer, with a glance at the Duke under her studied lashes. The Duke threw back his head and became lost in an inspection of the roof of the tent.

"Cliffe and I?" repeated Mrs. Lullimer, more insistently.

"Well, and what about me and Wrenny, I'd like to know?" Lady Wrenny broke in. "I guess I can afford the best lawyers in the country—"

"I don't see that the law concerns these children," Boyne intervened. "What they need is not to be fought over, but just to be left alone. Judith and Terry understand that perfectly. They know there is probably going to be another change in their parents' lives, but they want to remain together and not be affected by that change. I'm not here to theorize or criticize—I'm simply here as the children's spokesman. They're devoted to each other and they want to stay together. Beaten you all, can't it be managed somehow—for a time, at any rate?"

"But my little would be such a perfect little companion for Terry and Bianca. She knows all the very nicest children everywhere. That's one of the great advantages of hotel life, isn't it? And, after all, Judith will be married soon, and then what will become of the others?" Mrs. Lullimer turned a meaningful smile on Boyne. "Haven't you remembered that Mrs. Boyne's?"

Boyne curtly replied that he hadn't; and Lady Wrenny intervened: "I want my little to have a lovely simple home life, out on our ranch in California. This kicking about in hotels is too horrible for a child's life. I've been thinking about it for a long time, and I've decided that I'll have my little with me. I'll have my little with me. I'll have my little with me."

"You know something about that, Mrs. Lullimer?"

Mrs. Lullimer returned a look as gentle. "Oh, no; my children were never on a ranch at Hollywood," she said. "Hollywood—Hollywood? Stupid of me, I never in the West myself."

Joyce Wheeler raised herself on her elbow. "I'm sure I don't see the use of this. Four of the children are mine and Cliffe's. I've always tried to make them all happy. I've treated Zinnie, that Buondimonte's child, exactly like my own; and this is all the thanks I get for it! No one could be more patient than I would be to the education which is something his father never happens to have thought of. But, of course, everybody here is trying to put me in the wrong."

Mrs. Lullimer looked her soft surprise. "Oh, no. Don't say that, Joyce. All I feel is that perhaps the poor babies haven't been quite loved enough. You don't mind my suggesting it, do you? If they were mine, I don't think I should care so awfully much about making them into high-brows. What I should want would be just to see them all healthy and rosy and happy, and romping about all day like my little Fie."

"With lift-boys and barmen. Yes! I guess that is about the best preparation for life in the smart set," said Lady Wrenny parenthetically.

Mrs. Lullimer smiled. "Yes; Fie's little friends are all in what I believe you call the 'smart set.' I confess to think that even more important for a child than learning that Morocco is not in South Africa."

"Was in South Africa? Where is it, then, I'd like to know? Wrenny, you told me—"

"I'm off for a swim."

This announcement instantly disconcerted Boyne. He had already had occasion to realize the whole group. Nothing was so much as the interest in what they were doing as rapidly as the discovery that one of the party had had enough of it, and was moving on to the next item of the day's programme.

"Well, I'm off for a swim."

"I'm off for a swim."

"I'm off for a swim."

"I'm off for a swim."

# COMING ATTRACTIONS

## POLIS.

The Joe Cook musical success, "Rain or Shine," will be the attraction at Polaris Theater for one week starting Sunday night. The show comes here direct from sensational success engagements in New York, Boston and Philadelphia. The cast of principals, without a single exception, is the same as presented the circus plan in New York.

The expert and numerous company includes Tom Howard, lank, angular and somber-faced comedian seen here last in the seventh edition of the "Greenwich Village Polaris." Neil Roy, Warren Hull, Ethel Norris, Dave Chasen, Joe Lyons, Ella Petersen, Ernest Lambert, the sixteen American Rockets, thirty-two Tom Nip dancers, the Roustabout chorus, the New Yorker's Quartet and do little and lusty quartet of the white tops.

## NATIONAL.

In anticipation of one of the greatest weeks in their career, the National Theater Players are getting ready to present the screamingly funny farce, "Mary's Other Husband," for the inaugural period. They will play the first performance of this play on Sunday night, March 3, at 8:30. There will be the regular Wednesday and Saturday matinees.

"Mary's Other Husband" has to do with an ambitious young wife who has an imagination which she sometimes lets run away with her. In letters written to friends and relatives in the West, Mary lets it be known that her husband is a highly successful business man. Naturally, their home is the last word in elegance. When Mary's husband announces his intention to visit her she makes ready for an elaborate dinner party. She borrows curtains, her next door neighbors. She decides she needs a butler so her husband is pressed into service. His absence is explained by a heavy business appointment which keeps him out of town. Since he decides to remain in and meet the husband, a friend of the next-door neighbor is brought in as a substitute. The girl is told to bring along a maid, without any of them knowing it—and the fun begins.

Mary Newton, leading lady with the National Theater players, will play the role of her namesake who gets in all the trouble. Others in the cast include Wilfred Lytle, leading man; Freddie Sherman, juvenile; Nancy Baker, juvenile; Charles Hamilton, the uncle; Helen Wallace and Mrs. Adelaide Hibbard.

## STRAND.

"Peaches" is the name of the big show coming to the Strand Theater next week. Featured are the shimmy movements of Peaches herself, and Joe Van's comedy stunts. Other stars include Althea Conley, melody girl; Katharine Stevens, Edna Harris and Don Proctor. The show is a new one, and is a real extra attraction will be the wrestling match between Joe Turner and Bull Ricker. Ricker is a professional wrestler and instructor in wrestling for the Jersey City police force, coming from Jersey City, N. J. The match will be held on Sunday, March 3, at 8:30. The match will be held on Sunday, March 3, at 8:30.

The Boston Symphony Orchestra, under the leadership of conductor Serge Koussevitzky, will give its final appearance in Washington this season at the National Theater next Wednesday afternoon, March 6, at 4:30 o'clock, under the local management of Mr. Wilson-Greene, in a program peculiarly appropriate to the season.

The principal number of the program will be the first Washington presentation of Ernest Bloch's winning symphony, "America," with a chorus of the Washington National Opera. The program will be held on Sunday, March 3, at 8:30.

# BEHIND THE SCREENS

With NELSON B. BELL

To many it is by now no news, but for the benefit of the incoming hosts I feel that it may not be amiss to say that all of the regular downtown first-run picture houses are to put on extra midnight performances next Sunday night for the delectation of that goodly portion of every crowd of celebrants who find amusements no part of their plans for a quadrennial burst of boom-boom.

The bills to be presented, I am led to believe, will be quite in the spirit of whoopee, and will conform, in so far as their sponsors are able to encompass so happy a result, to the festive tempo of the inaugural carnival. Although I have not heard that other interests are pursuing an opposite course, Mr. Rubin, chief publicist of the Loew enterprises in the Capital, urges me to state right out in meeting that the pastiming under his loquacious promotion will be at the accustomed scale of admissions, no extra penny being levied for any seat.

It concerns me a bit that the boys have not got together and decided upon a common hour of beginning the extra gala going-on. There is, as things now stand, a terrific discrepancy among the divergent hours at which the starting guns will pop. At the Loew theaters, for example, I happen to know that an assignment that is tougher than a rawhide boot!

Mr. Cullen, on the other hand, who shares Mr. Harriman's gleam of having been sent to Washington, is a genial and gracious young man, who will find favor, I am sure, with both public and its vitriol squitters, and already has made it with me by offering every assurance that Mr. Harriman's trick mean still will be good, even at the stage door.

By the way, next week's inauguration bills look something like this: Metropolitan, Richard Barthelmess and Betty Compson in "Weary River," in which the star finds his voice for the first time; Palace, John Gilbert and Mary Nolan in "Desert Nights"; Fox, Mary Astor in "New Year's Eve"; East, Richard Dix in "Redskin"; Columbia, Ruth Chatterton, Robert Edson and H. B. Warner in "The Doctor's Secret"; First National, "The Birth of a Nation," and "Behind the German Lines," second week. The auxiliary attractions are very kippy.

I understand there are still some good inauguration seats to be had along the Boardwalk at Atlantic City!

# YOUR BOY AND YOUR GIRL

By ARTHUR DEAN, SO. D.  
The Parent Counselor.

## FIGURE IT OUT YOURSELF.

TWENTY-FIVE hundred dollars a year, payable in twelve equal installments as a reward for going to college, looked pretty good to William Cullen Bryant Kemp, a freshman in 1888, at Columbia University, New York City, New York.

It seems that William C. B. didn't have, 60 years ago, any particular leanings toward getting a sheepskin. But in order to give him an educational bracer, a wealthy relative left him \$2,500 a year as long as he remained in college.

The proposition looked good to this boy of eighteen and so he accepted. It proved so good that he kept up his end of the bargain for 80 years and during these long years of study was credited with the degrees of A. B., M. A., M. D., LL.M., B. Litt., LL. B., Ph. D., C. F., E. E., Mech. E. E. M., Pharm. Chem., and three degrees of B. S. Count 'em up.

The degree which pleased him most was that of D. P. M., "Doctor of Perpetual Motion," conferred on him by the students.

William Cullen Bryant Kemp was the world's greatest exponent of the money value of an education. Statistics to no statistics, he could prove that one A. B. degree was worth to him \$10,000 or three B. S.'s equal \$30,000 and that a string of alphabets could be bought for something around \$12,500 per letter.

He gave the lie to the traditional statement that the more education a man has the more he is capable of earning.

In pulling 42 degree letters, covering his wall three layers thick with diplomas and consuming a fortune to the tune of \$150,000, he proved the more one is educated the more he spends.

Assuming he had left college after four years with just one of those bachelor degrees he would have earned (my figures are based upon a record of 454 rather superior Harvard graduates between the ages of 21 and 30) an average income of \$5,785; from \$1 to 40 it was \$15,748; from 41 to 50 it was \$21,428; from 51 to 60 it was \$32,773; after 60 his earnings would have decreased. We will assume that William

Cullen Bryant Kemp was the equal mentally and socially (a very reasonable assumption) to this selected Harvard group. Now let's see: Ten times: 5,785, plus ten times 15,748, plus etc., equals a total of \$1,117,340. (Say, folks, this doesn't seem right either.)

Our D. P. M. thereby lost (deducting \$150,000 for 60 years' service as a schoolboy) the rather tidy sum of \$967,340, to say nothing about all the fun he missed the past three score years in working like a he-man. Evidently he did not agree with the preacher of old that—

"Much study is a weariness of the flesh."

## OUR CONVERSATION CORNER.

What Is Correct Age?

Is a girl of 14 too young to go about with boys? Please tell me the proper age if you don't answer "yes" to this question.

Answer—Of course a 14-year-old girl is old enough to go about school and church with boys and to study, read, and play with them. But (there's always a "but" in life's problems) don't get silly over the subject.

DISCOURAGED.  
My boy is almost 10, gets up early enough, but plays around, reads early in the night and can't seem to settle what time studying should be. I do to get him to school on time.

# THE ONCE OVER

By H. I. PHILLIPS

## A REPORT ON MR. ROCKEFELLER'S GOLF.

Ormond Rockefeller, the Colossus of Sokony Stations, play golf. It was worth more than watching Hagen, Sarazen, Fazio or any other golfers, who are still making their first million, but it cost us nothing. "John D." gave us a dime.

This department hereby certifies and affirms that Mr. Rockefeller is a creature of flesh and blood. His age may be 86 years old but his emotions are upon occasions just as young as any other man's. This was one of the occasions. He had just sunk an 18-foot putt!

Up to that point the Oil King had seemed just a very tired old man. He hadn't appeared to have any enthusiasm for chasing giant marbles. It seemed to your correspondent that he was merely taking eight holes of golf a day, and he was tired. He was tired. He was tired.

Then the years rolled right off Mr. Rockefeller's back. He shed at least 75 of them in the twinkling of an eye. He pranced a little, smiled a smile never seen in the rotogravure sections, shook his head merrily and waved his hand at the gallery in a gesture that was the equivalent of "Oh baby!" "Whoopie!" "Hot Dog!" and "The that one!"

The Gasoline Grandee was a boy again. That was the content to have touched him for a billion for any purpose. He admitted it. He had his dimes out before he had left the green and as he passed the green he said, "I feel very generous after that one. I shall probably give away my last farthing."

Then he talked enthusiastically about the sunshine, the temperature and the birds and flowers. He mentioned honey-bees. It just goes to show what sinking a putt will do to a man.

# STRIBLING DISAPPOINTS AS SHARKEY WINS DECISION

## 3 Nats Balking At Griffith's Terms

Jones, Marberry and Hayes Classified as Holdouts.

## Overdue at Tampa; Johnson Personally Leads Workouts.

By FRANK H. YOUNG.  
(Staff Correspondent of The Post.)  
TAMPA, Fla., Feb. 27.—When is a holdout not a holdout? This is a question which President Griffith will be called upon to answer Monday unless Pitchers Fred Marberry and "Sad Sam" Jones and Infielder Jack Hayes have changed their minds and either return in their signed 1929 contracts or advise that the terms offered by the club are satisfactory. "No player may be called a holdout," the Nat owner, who dislikes the word "holdout," has often declared, "until he has failed to come to salary terms by the time he is ordered to report. The trio named above had been ordered to show up here in time for a workout last Monday morning, but none of the three has signed his contract or made any motions toward doing so, and it begins to look as though even Griffith will have to admit that the word "holdout" applies.

## Only Jones in Position to Demand Salary Boost.

As a matter of fact, to a fellow on the outside looking in, it is hard to see how any of this trio has a just claim for more money unless it be Jones. Sam won seventeen games and lost seven last season, but drew \$10,000 for doing so. He will be 37 years of age in July and was picked up on waivers after every other club in the league turned thumbs down on him. He can not be expected to get any better than he was last season.

In the case of the other two, it is difficult to see where they have any claim whatsoever for salary boosts. Regarding Hayes, despite the fact that he has failed to win himself a regular berth, he has been offered a \$10,000 increase and a bonus of \$500 if he makes the grade, yet he wants more, while all Marberry can point to is a record of thirteen victories and as many defeats. As the Nationals' owner declares, he has taken a firm stand against making any better offer to the three in question. It looks as though the Washington club will have some holdouts for the first time in several years. One thing is certain, however, it won't be long for some one is bound to give in, and, if Griffith doesn't, the players will.

## Johnson Appears in Uniform And Leads Rookies in Drill.

Outfielder Goose Goslin also is still unsigned, but he is not due here until March 10, and much correspondence can be conducted between now and then.

As regards the players in the fold and training at Plant Field, the only thing out of the ordinary at this morning's session was the appearance of Manager Walter Johnson in a Washington uniform for the first time since 1927. With the practice routine for the young pitchers and catchers already mapped out, Trainer Mike Martin was put in charge, while Johnson put in a few training clicks on his own account.

The big train indulged in a long pepper drill and then, just as he was about to leave, he was called back to his quarters by the fact that he practices what he preaches, he tore off two laps around

## Fists Fly in Free-for-All At Weighing-In Ceremonies

By ALAN J. GOULD.  
(Associated Press Sports Writer.)

MIAMI BEACH, Fla., Feb. 27 (A.P.).—The weighing-in of Jack Sharkey and Young Stribling at the Kenedel Club, marked by a sharp verbal exchange between the fighters themselves, was followed by a free-for-all row between adherents of the two camps when "Pa" Stribling took a punch at Tony Palomozo, Sharkey's trainer. Plats flew in all directions and police were called to quell the disturbance.

## Police Restore Order With Sharkey Followers in Command.

In the free-for-all that developed, nearly everyone claiming adherence to either party joined. By the time the police had arrived to restore order, the Sharkey party evidently was in complete command. "Pa" Stribling and other members of the party retired before the battle reached its full height and the others of the Stribling camp were outnumbered and routed. Except for a few bruised noses and eyes, and some torn clothing, the damage appeared not to be serious.

## NURMI FAILS BOUTS AT C.U. TO SATISFY A.A.U.

Ban Remains; Runner Says He Had Cold; To Investigate.

NEW YORK, Feb. 27 (A.P.).—After an interview with Paolo Nurmi, the registration committee of the Metropolitan Association of the Amateur Athletic Union tonight failed to lift the indefinite suspension imposed upon the Finnish runner for his failure to appear for the national championship meet Saturday.

Nurmi was questioned at length and made statements to the committee which that body said would be investigated further and his status determined finally at a future meeting. No date for this meeting was set. The decision of Saturday night is to remain in force until the meeting.

Nurmi said that when he was in Detroit, where he raced on February 20, the temperature was below zero and the cold which had troubled him for nearly a month was aggravated.

## Friends Would Not Take Him Seriously, Finn Ace Says.

He said that, returning on the train to New York, he made up his mind to run in the national championships, but that his friends did not take him seriously.

He said that, returning on the train to New York, he made up his mind to run in the national championships, but that his friends did not take him seriously.

## Two Ejected for Loading In Miami's Battle Royal

MIAMI BEACH, Fla., Feb. 27 (A.P.).—A battle royal preliminary furnished a novelty for many of the Sharkey-Stribling fight crowd. Twelve negroes entered the ring for a fight to a finish, each contestant being eliminated when he went down. Four fell out in short order and three more followed in the next two rounds. "If you don't fight you don't get nothing," said the negro referee, who was kept busy dodging the flying gloves to perform many of the accepted functions of the third man in the ring. Two were summarily ejected for loading, leaving three. The trio was reduced to a duel when two jumped on the most formidable of the three and felled him. The two survivors were rugged and lasted until the final bell.

## Putting the Eye on His Rival, Sharkey Asks Stribling.

"What are you nervous about, Stribling?" "I'm not nervous about you, Stribling," "I'm not Jack Delaney, you know." "There was no surprise in the weight difference, as Sharkey figured to have a decided edge. Official examination of the rivals resulted in the verdict of perfect condition for both. Meanwhile, ticket sales were reported to have taken another jump. "Big Bill" Carey, business chief for the Madison Square Garden Corporation, revised earlier estimates and predicted a "gate" of \$300,000. There were still several thousand unsold tickets, however, he admitted.

## NURMI FAILS BOUTS AT C.U. TO SATISFY A.A.U.

Ban Remains; Runner Says He Had Cold; To Investigate.

NEW YORK, Feb. 27 (A.P.).—After an interview with Paolo Nurmi, the registration committee of the Metropolitan Association of the Amateur Athletic Union tonight failed to lift the indefinite suspension imposed upon the Finnish runner for his failure to appear for the national championship meet Saturday.

## 40,000 Watch Sharkey Win With Rally

Stribling Fails in Bid to Humble Sailor in Close Battle.

## Staggered Bostonian in Fourth With Hard Right to Chin.

Continued from page 1.

Southern rival in a fast finish before a crowd of close to 40,000 in the most picturesque and colorful sports spectacle the South has ever witnessed. This crowd of wealth, fashion and fame, seated in a pine board arena fringed with palm trees and bordering the city of Miami, witnessed the fight between the two heavyweights. The fight was a close one, but Sharkey, a top-heavy favorite, won, but only after as close a call from defeat as he has ever had. Only the most desperate, determined sort of rally enabled the Boston sailor to overcome the big early advantage that had been piled up by Stribling.

## Stribling Gives Crowd Thrill With Crashing Right in Fourth.

Outweighed by ten pounds, his recovery from rib and arm ailments somewhat doubtful, Stribling put up a spectacularly courageous fight before a Southern crowd, a throng of "home folks," who had come to see their idol battle.

For more than half the fight Stribling was the aggressor and the more dangerous puncher. In one round, the fourth, the Southerner gave the crowd

## 32 of 37 Experts Agree Sharkey Won Decision

MIAMI BEACH, Fla., Feb. 27 (A.P.).—The expert consensus, taken among ringside critics after tonight's fight, showed a big majority in agreement with the decision in Jack Sharkey's favor. The ratio was about 12 to 1.

The average of opinions of rounds also agreed substantially with the verdict of Referee Lou Magnolia in scoring six for Sharkey, three for Stribling and one even. Opinion ranged, however, from score sheets showing eight rounds to two on Sharkey, to the scattering few who gave Stribling an edge of one or two rounds.

Of 37 experts polled, 32 agreed with the decision, while only five considered Stribling had won.

probably his biggest thrill when he staggered his big foe with a crashing overhead right to the temple.

But the handicap in weight, the fact that he tired and that his left arm took a heavy toll in the strength and fighting power of the little, trim and good-looking Georgian. He fought a game but lost the battle on the sixth round, severely punished by smashing body attack, blood flowing from his mouth and his ribs a splootch of fiery red.

Crowd's Sympathy With Stribling After Referee's Decision.

It was so close, however, at the finish that the big crowd stood in tense silence for the few minutes it required for the referee, Lou Magnolia, to pry them from their last clinging grips and give their hands aloft. As the sole arbiter, the decision was in the New Yorker's hands.

The crowd at first seemed stunned. Its sympathies obviously were mostly with Stribling from the start, for reasons of sentiment, of youth and of section. But the crowd was a big one for Sharkey and a bigger one for the gallant youth whose head was bloody and unbowed to the last.

Sharkey's body attack unquestionably gained him the verdict, despite a slow start, woeful wildness at times and members' cars.

Sharkey's body attack unquestionably gained him the verdict, despite a slow start, woeful wildness at times and members' cars.

## GEORGIAN WILTS BEFORE ATTACK OF HEAVIER FOE IN SLOW FIGHT; VICTORY CLOSE BUT CLEAN CUT

## The Boys Don't Like to Fight, Pegler Says of Sedate Bout

By WESTBROOK PEGLER.  
Special to The Washington Post.

MIAMI BEACH, Fla., Feb. 27.—The great ballyhoo for the faro lay-out, craps tables and roulette wheels, for Al (Carfare) Capone's quarter-in-the-slot machines, for the cocktail bars and the hotels along Miami's pleasant shore came to a comic climax this evening. Jack Sharkey and William Stribling, two homecoming young men, fought a sedate round in the rough-pink stadium which Tex Rickard envisioned as a decoy to lure customers to his gambling house on the beach.

Sharkey got the decision. He dabbed Willie's attractive but somewhat punched-up features with scarlet smears, from time to time raised a welt under each of his eyes, and drove both of his gloves, but especially his right one, crashing under William's ribs. Lou Magnolia, the referee imported from New York to keep the youths keyed up to their work, scolded and glared at each of them, but did not interfere. He was selected because both of the young business men are notoriously languid and likely to do no more than the law requires of them.

Mr. Magnolia has a Muscovite air in his pale gray eyes, which seem almost to stare at you from under his heavy-lidded lids. He is a first one in every round. In this way he has won the respect of the crowd, and the crowd, in turn, has respected him. He is a first one in every round. In this way he has won the respect of the crowd, and the crowd, in turn, has respected him.

Mr. Magnolia's fault-finding was impartial. He complained about some of Sharkey's early body punches on the clinch, bringing a pink drool to the lips of the chronic juvenile who has been fifteen years the Georgia school-boy but never an alumnus of anything. From this time on, William was suffering from mild nose blood or split lips almost constantly, and in the fourth round he grew a small lump beneath his left eye for symmetry.

Mr. Magnolia's fault-finding was impartial. ## BOB SHOTTER PLACED ON G.U. RELAY

Ex-Devitt Star Gets Hooter's Post for Intercollegiate.

ANOTHER change yesterday was effected in the Georgetown University mile relay team which will try to hurry the fastest toward the finish line Saturday night in the indoor intercollegiate championship games in New York City.

By virtue of drilling the Hilltop board oval in what was reported to be the fastest quarter-mile of the trials which were to determine the personnel of the team, Bob Shotter, previously in the background, was picked to run with Capt. Eddie O'Shea, John Cranley and Edwin Cosh in the feature relay of the titular meet.

Thus, Shotter gets his chance to continue the brilliant running that marked his career as a freshman and a sophomore. Now in his third year at Georgetown, the former Mercersburg Academy and Devitt Prep flash has had trouble this winter rounding into form, and until now he has not competed on any of the numerous teams Georgetown has entered in Northern relay races.

The selection of Shotter, who as a schoolboy earned recognition as national intercollegiate quarter-mile champion, leaves Eddie O'Shea, hitherto a regular, out of the mile four.

**Capt. O'Reilly III, May Not Accompany Team to New York.**

Capt. John D. O'Reilly made the selection last night at his home where he has been confined for the past two days with a heavy cold. While he is not seriously ill, he is certain that he will accompany the Hilltoppers when they depart for New York tomorrow afternoon.

All told, eighteen Georgetown athletes will compete in the championship meet. They are: Karl Wildermuth, national 60-yard dash champion; Dave Adelman, intercollegiate indoor shot put champion; Leo Sexton, all-around star; Eric Kjellstrom, hurdler and member of the Swedish Olympic team; Dan Hennnessy, miler; Ray Parrell, broad jumper; Larry Milstead, Jay Julicher, John Carney and Jerry Gorman, of the two-mile relay team; John Mack, Artie Briggs, Charles Carlin and James Kelly, of the freshmen medley relay team, and the mile quartet of O'Shea, Cranley, Cosh and Shotter.

### BOYS CLUB LEAGUE.

## NURMI BAN HOLDS; A. A. U. NOT SATISFIED

Continued from page 17.

seriously and he was compelled to send personally a letter announcing his withdrawal.

He declared he posted his letter in New York at 2 p. m. Friday, the day before the meet. It was not received at the New York office of the A. A. U. until Monday.

Learning of his suspension on Sunday morning when a roommate read the New York papers to him, Nurmi sent a second letter to the A. A. U. expressing regret that his "business had come at the same time as the championship meet."

"Because of the courtesy you have shown me, I would have been to the best of my ability at your service," his letter said.

Nurmi presented a doctor's certificate that he was ill and requested that his case be investigated by an impartial body.

## STRIBLING FAILURE BEFORE DIXIE FANS

Continued from page 17.

It was one of his best. He all but held his own in the boxing, and the vast throng seemed to feel it had its money's worth.

**\$5,000 Paid \$400,000 to See Fight Below Par.**

The fight would have had to be better than this to see the \$5,000 paid \$400,000 to see the show. Perhaps they didn't pay to see the show, but Jack Dempsey, debonair in his new role of promoter, W. P. Carey, genial guiding spirit of the affair, and all the celebrities at the ringside—

celebrities such as the crowd dreamed of when he planned this last fight venture by the sea.

Here sat millionaires and their ladies in gay summer dress or gleaming evening attire; there sat Al Capone, "One-Kay" Connolly, and all the strange mixture of humanity which attends such widely advertised affairs as this between Sharkey and Stribling.

The moon over the ocean, the palms peeping up over the edge of the 85 seats at the top of the arena, and summery breezes from across the bay, these things were worth the money even if the fight itself was not.

**First Round Is Rather Slow**

**Affair: Stribling Wrestles.**

The battling began with both men wary and light-footed in the first round. They sparred in midring, jabbed lefts without damage, and Stribling did a bit of wrestling. The round was even.

The Georgian, warned twice for unfair tactics by the vigorous, outspoken Magnolia, got in some heavy blows which drummed on Sharkey's ribs and won the second session.

## Central Wins, Loses In Two Court Games

In a preliminary to the Catholic U. Blue Ridge game at Brookline last night, the Cardinal Freshmen closed a most successful season when, with their seventeenth victory in 20 starts by downing Central High School, 28 to 22, Central jumped into an early lead and held the advantage at the half, 13 to 8.

The Blue and White carried this advantage into the last quarter, but a belated rally by the Freshmen, led by Kane and Clemens, turned the tide. Rico, coach of the Catholic University varsity coach, led the Centralites, with 7 points.

Central triumphed over Episcopal High in a fast encounter in the Blue and White Gym yesterday afternoon, 24 to 18. Capt. Fisher and Cross led the attack for the Centralites.

## Grays Win Community Center Unlimited Title

The United Typewriter Grays defeated the Mount Vernon Five, 40-19, for the unlimited championship of the Community Center last night. It was the fourteenth straight victory for the Grays.

Forney, at center, led the attack. The Grays play Silver Spring at Silver Spring at 8 o'clock on Sunday.

## GOODS HOLIDAY ATTIRE FOR EVENTS OF INAUGURAL WEEK

Final Details Are Rushed as  
Committee Utilizes  
Last Four Days

PARADE PLANS STAND  
AS FIRST ANNOUNCED

Police From Other Cities Augment  
Capital Force During  
Ceremony.

With the event just four days away the city of Washington is beginning to exhibit signs of holiday spirit, preparatory to the inauguration of Herbert Hoover as President of the United States Monday.

The sound of hammers tapping and saws buzzing along Pennsylvania avenue is gradually receding as workmen complete the stands which will hold thousands gathered to see the inaugural parade. Within a few hours the decorations which will convert the avenue into a maze of bunting and flags will be put into position.

At headquarters of the inaugural committee there is a hustle and bustle which marks the final spurt down to the wire in any event requiring the extensive preparations which mark an inauguration of a President.

Confusion is lacking.

However, the confusion which has occasionally been so prominent in the final hours before the inauguration of a President this year, under the able leadership of Col. U. S. Grant 3d, chairman of the general committee, the arrangements for the parade, the distribution of grand stand tickets, the filling of room reservations for thousands of visitors and the 1,000 and other things incident to the inaugural week have been handled with a military precision designed to provide complete comfort for every one with the least possible inconvenience.

From the headquarters of the general committee in the Willard Hotel came the announcement yesterday that contrary to reports, President-elect Herbert Hoover will approach the White House after the evening ceremony, by way of Fifteenth street and Pennsylvania avenue, rather than down the rear of the Treasury Building. Holders of grandstand seats along Fifteenth street and the avenue, near the White House, had besieged the committee members with demands for a change, having heard the committee had decided to alter his route.

Mr. Hoover has decided to have lunch at the White House immediately following the inaugural ceremony in the Capitol. The members of the Coolidge Cabinet, members of the new Cabinet and a party of guests of the President-elect and Mrs. Hoover will have luncheon and then the party will proceed to the stands on Pennsylvania avenue to view the parade.

Parade Starts at Twelfth.

Marchers will begin their journey down the Avenue from the Capitol while the President-elect and his party are at lunch. The parade will be halted at a point now designated as Twelfth and the Avenue where it will await word from a White House courier. News that the new President is in his box, ready to review the marchers, will be taken along the line and the parade will be resumed.

Invitations have been mailed by President-elect and Mrs. Hoover to 800 members of the Army, Navy and Marine Corps, both here and abroad for a reception to be held at 2300 S street Saturday afternoon. The Hoover couple will make their headquarters at the Carlton Hotel.

The official souvenir program of the inaugural, of the press yesterday, is the only one of its kind in the history of the inauguration. The program, during the parade, the general committee has ruled.

O. B. Gramham, H. C. Reed and Sidney Lust yesterday inspected the broadcast arrangements for the celebration. The main control station will be in the telephone exchange at 725 Thirteenth street, and pickup stations for both the National Broadcasting Co. and the Columbia Broadcasting Co. will be located in the White House, at the southeast corner of the Treasury, Star Building, 109 Pennsylvania avenue, 101 Pennsylvania avenue, and in front of the Capitol and in the Senate.

A special program of Latin-American music has been announced for the promenade concert at the Pan-American Union Building Saturday evening, March 2, in honor of President-elect Hoover's recent tour of Central and South America. The concert will begin at 7:30 o'clock and will be open to the public without admission cards. Goldman's Concert will be directed by Meyer N. Goldman, will play.

Special Honors at Ball.

Mrs. John Allan Dougherty, general chairman in charge of the charity ball at the Washington Auditorium the night of March 4, has arranged special honors to be paid to the Army, Navy and Marine Corps at the ball.

Gen. Charles P. Sumner, chief of staff of the Army; Admiral Charles F. Hughes, chief of operations of the Navy; and Maj. Gen. John A. Lejeune, retiring commandant of the Marine Corps, will be escorted through a line of honor formed by members of the division. Buglers will salute the officers and service orchestras will play the established anthems of the three defense divisions.

At Union Station railroad executives are preparing to handle the host of visitors who will arrive, beginning Friday. Extra cars attached to regular trains will bring the first of the out-of-town delegations Friday and Saturday. A half dozen extra trains are expected Sunday, while 25 specials are expected Monday morning. Officials of the various roads are arranging also for the quick departure of many of these visitors immediately after the parade Monday afternoon.

All choice seats in the stands have been sold and only a few of the \$3 and \$5 seats remain. Late comers are likely to be out of luck when they attempt to get parade seats, while others who failed to make reservations for rooms may also find benches at the railroad station their beds for at least one night.

Washington will be "policed" as it has never been before during the inaugural period, according to announcements yesterday by Maj. Edwin B. Hesse, chief of the District police. Six hundred District policemen will be augmented by 210 men from Baltimore, also in uniform, for duty along the route of the parade.

Detectives in Crowds.

In addition 100 of the crack plain clothes men of the local department will mingle with the crowds and attempt to prevent any outbreak of post-parade "confidence" games. Another hundred of the East's best detectives from the larger cities will come to the city for the ceremonies and they too will devote themselves entirely to "spotting" pickpockets and confidence men.

They should have their share in the maintenance of order and rendering

## DAVIS PINS WAR CROSS UPON ORVILLE WRIGHT

Secretary of War Dwight W. Davis pinning the Distinguished Service Cross on Orville Wright, first man to fly a heavier-than-air powered machine. At the left is P. Trubee Davison, Assistant Secretary of War for Aviation. The cross was awarded yesterday to Wright and, posthumously, to his brother, Wilbur Wright.

## FIRST FLIER TAKES TRAIN TO HOME CITY

Orville Wright, Given Flying  
Cross by Army, Returns  
to Dayton by Rail.

BROTHER ALSO HONORED

(United Press.)

While fuzzy-faced youngsters and graybeards cavort in the airplanes he invented, Orville Wright is returning to his home from Washington by train—earthbound in a world of fliers.

He was here yesterday to receive from Secretary of War Davis two distinguished flying crosses, one for himself and the other a posthumous award to his brother, Wilbur. Their flight at Kitty Hawk, N. C. December 17, 1903, said the identical citations, made possible "the achievements and pride of the world." In other words, there had been no Wrights, there could have been no Lindberghs.

"But I can't travel far, even by automobile. One day's riding is enough and I don't know how I would stand a trip of 1,000 miles. The trip here by train from Dayton, Ohio, seems pretty far."

Department of Commerce tabulations showed 873 civilian airplane accidents in the last six months of 1928 did not indicate to Wright that anything was radically wrong with the flying industry. The department reported that 215 persons were killed in the crashes.

"Perhaps commercial aviation is attempting to do a little more than it is prepared to do, but I don't think it is a little too far."

As he talked, Wright glanced at three Bolling Field planes high above the Washington skyline where he and his medal were being photographed. Then he turned inside to telephone the Union Station.

"Yes, sir; a lower berth to Dayton"—for the world's first flier.

Good Will Calling  
Seen as 'Epidemic'

Buffalo Evening News Man  
Speaks on Hoover's Tour  
Before Rotarians.

An epidemic of "international calling" as a result of the Latin-American tour of President-elect Hoover is being predicted yesterday by James L. Wright, of the Buffalo Evening News, speaking before the weekly luncheon of the Rotary Club at the Willard Hotel. Wright was a correspondent on the tour.

As a sidelight of the trip, Wright said that in Latin-American countries the president is usually a military dictator and is actually the government. That viewpoint caused the visit of the President-elect to many of the countries to be regarded as a visit of the United States Government itself.

Dr. Sao-Rs Alfred Sze, Minister of China, who is leaving shortly to assume the same position in London, was a guest of the club and was given a rising vote of appreciation for his work here. Guy Gundaker, of Philadelphia, a past international president of Rotary, was also a guest of honor. The nearest of the tour to the club was in the presence of 25 Rotarians from out of the city.

Reports Loss of Her Police Dog.

Mrs. Carl von Lewinski, of 3145 Sixteenth street northwest, wife of the German agent of the United States-German trade mission, last night reported to the police of the Tenth Precinct to assist her in locating her German police dog, which has strayed from her home.

of first aid. Maj. Hesse will confer with

scout officials tomorrow or Saturday

with regard to the possibility of

assigning some of the line of march. They

will aid visitors in reaching seats, es-

pecially those who are unable to

reach the stadium by public conveyance,

and will also be assigned to the duty of

maintaining order and rendering

aid to the public.

Washington will be "policed" as it

has never been before during the in-

augural period, according to announce-

ments yesterday by Maj. Edwin B. Hesse,

chief of the District police. Six hundred

District policemen will be augmented

by 210 men from Baltimore, also in

uniform, for duty along the route of

the parade.

Detectives in Crowds.
